

Customized Permanent Sports Hall Tent With Surface Oxidation Treat Weather Tents For Sports

Our Product Introduction

Basic Information

- Place of Origin: Guangdong , China
- Brand Name: Tendars
- Certification: ISO9001, SGS, Coc, CE
- Model Number: Big tent
- Minimum Order Quantity: 25 square meters
- Price: Reconsideration
- Packaging Details: 1, The aluminium frame structure packed into the bubble film 2, the pvc fabric roof cover and sidewalls are packed into the PVC fabric carry bag; 3, Hardware packed into the box.
- Delivery Time: 18days or To be negotiated
- Payment Terms: L/C, T/T, Western Union, MoneyGram
- Supply Ability: 50000 Square Meters per Month

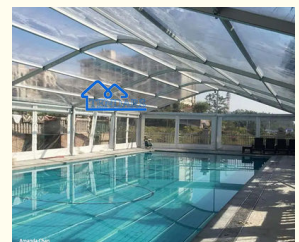

Product Specification

- Product Name: A Shape Frame TENT
- Frame Material: Hard Pressed Extruded Aluminum Alloy 6061/T6
- Roof Cover: 850g/sqm Double PVC Coated Fabric
- Fabric Color: Accept Customized
- Size: Accept Customized
- Season: Four-season Tent
- Surface Treat Method: Surface Oxidation
- Connectors: Hot-dip Galvanized Steel Parts
- Highlight: **Permanent Sports Hall Tent,
Customized Sports Hall Tent,
Surface Oxidation Sports Hall Tent**

Product Description

Customized Permanent Sports Hall Tent With Surface Oxidation Treat Weather Tents For Sports

Product Parameter :

Main Structure	Hard press aluminium 6061/T6
Size	Accept Customized
Material Features	Customized according client's weather condition
Cover material Density	650g/sqm, 750g/sqm, 850g/sqm Both sides lacquered PVC coated fabric
Outside Tent Waterproof Index	>3000 mm
Sidewall	Soft PVC Walls
Wind Load	100km/h
Snow Load	Customized according client's weather condition
Application	outdoor event/sport/storge etc..
Life Time	Aluminum frame more than 20 Years. PVC fabric 8 years
Season	Four-season Tent
Style	European
Allow temperature condition	-40 degree Celsius~+70 degree Celsius
Ground	All kind of ground can be fixed
Fixing Solution	Expansion Bolt
Bottom Waterproof Index	>3000 mm

Product description

Sport tent is a sports venue built with a tent structure. It has attracted much attention for its unique appearance and flexible structural design.

The tent adopts a modular and multi-functional design, which is different from traditional buildings: it is completely disassembled, and has shorter production and quick installation time. Can therefore be resold, reconfigured, expanded or relocated at a later date, and reused in many different applications

The tent can flexibly adjust its internal space, and according to different needs, it can be separated or merged to suit different sports and activities. The tent gymnasium has good light transmission and air permeability, can make full use of natural light and air circulation, and create a comfortable sports environment.

In addition, the construction cost of the sport weather tent is low, and the maintenance and management costs are also low, which is in line with the principle of sustainable development.

It has become a new choice for modern sports with its innovative design and flexible structure. I believe that in the future, the Tent will continue to develop and innovate, injecting more vitality and passion into sports.

- 1, No pillars inside our tents, interior space can be 100% utilized, no obstacle
- 2, Durable, strong structure for 4 seasons permanent using.
- 3, Waterproof, flame retardant, UV resistant, snow resistant.
- 4, The tent can be fixed on different kind of ground
- 5, Modular structure, easy install and dismantle, and re-sale

FAQ :

Q: Is your tent strong and stable enough? How about the wind loading and the snow loading?
