Make starry tent be a restaurant, service front desk and other functional areas

Characteristic management, quality experience

Large-diameter tents can also be used as event venues

You make all the difference.

Glamping tent structure features :

The spherical glamping tent has the characteristics of strong structure and complete facilities, and has a high comfort, so it has been introduced

to many countries and has become the favorite of wild camping friends. The original spherical glamping tent had eight ropes fixed to the crown of

the tree, about 3 meters above the ground, so as to avoid the threat of wild animals. The frame of the tent is made of ash wood or other strong

wood and recycled aluminum, and waterproof cotton is also used in the top place to avoid rain water entering the tent. The outer cloth of the tent

is also waterproof fabric, which can better waterproof and windproof. Some tents have a double bed that can be folded into two benches, as well

as LED lights for lighting and a stove, which can be said to fully meet the clothing, food and shelter of wild camping.
