Drawings :

Layout Plan: Create a rough sketch of the layout, showing the arrangement of the tent, entrance/exit points, seating areas, stage (if any), food and beverage stations, and any other important elements.

Elevation Views: Provide drawings that show the tent from different angles, highlighting its height, shape, and any decorative elements.

Structural Details: Include detailed drawings of the tent's framework, supports, and anchoring mechanisms. This could include frame sections, joints, and connections.

Fabric and Covering Details: Indicate the type of fabric/material used for the tent covering and any decorative elements like drapes or awnings.

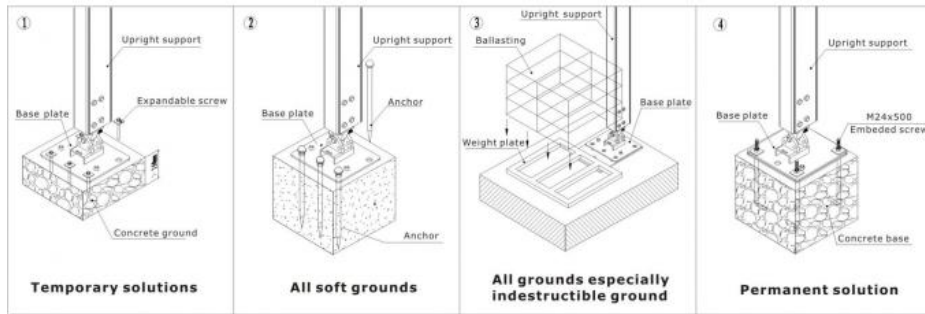

Electrical and Lighting: If applicable, include plans for lighting and electrical installations. This might involve overhead lighting, spotlights, power outlets, and cable routing.

Safety Measures: If relevant, show the placement of fire exits, emergency exits, fire extinguishers, and any other safety-related features.

Scale and Dimensions: Ensure that all drawings are properly scaled and dimensions are accurately represented.

FAQ

Q: How to visit our factory?

Our factory is located in Guangzhou city, China.

40 minutes by car from Guangzhou airport to my factory

2-hour train from Shenzhen city, China to my factory

Q: Is your tent strong and stable enough? How about the wind loading?

Yes. The main frameworks (upright support and roof beam) are manufactured with high impact extruded anodized aluminum (6061/T6) so our tent structure is safe and strong and can resist wind up to 100 km/hr after setting up correctly.

Q: What size tent is necessary for your special event?

A person must first determine tent usage. If a tent is being used for dining purposes and round tables are being used allow 10-12 square feet per person. If banquet style tables are being used allow 8-10 square feet per person. If the purpose is for cocktail service allow 5 to 6 square feet per person. Contact us for all your specific questions and more information on tent types.

Q: How long is the warranty period?

Guarantee one year. During the warranty period, we shall repair or replace the damaged part accordingly because of any damage due to quality problem.

Q: Does your tent be able to install repeatedly?

Our tents can be assembled and dismantled and repeatedly with small transportation size. The lifespan of aluminium framework can reach 15-20 years, and 5-8 years for PVC fabrics depending on different conditions of usage.
