Product Description

Temporary Covered Marquee Tent For Wedding Party Exhibition High Quality Canopy

Product Specification:

Used copper material buckles instead of velcros to connect the roof covers'bottom. Durable and no rust.

Used the double wings Keder as hangers of the PVC sidewalls. Life span is about 8-10 years.

Used the ropes and copper material eyelets to connect the sidewalls, not by zipper.

Rope is not cut in pieces, one complete rope to stitch along the sidewall fabric.

Used the double wings Keder as hangers of the PVC sidewalls. Life span is about 8-10 years.

Hot-dipped galvanized steel sidewall tension bars,made the sidewalls stable in strong wind situation.

650-850g/sq.m double coated PVC material, which is water proof, UV resistant, fire retardant, anti-mildew, self-cleaning function.

Color available:

White, red, yellow, blue, green, black, grey, transparent etc

WHY CHÖÖSE ÜS :

- Guaranteeing quality but reducing cost by 16 years' experience
- Focusing on global PVC tents market and requirements.
- Innovating hardware design for more trendy and convenient
- In order to improve efficiency,suppliers of ram material are neighbour.
- 100% inspection before exporting and 100% after sales service following.
- Ongoing creation and innovation can go beyond.

What kind of tents can be offered :

Permanent erected germany marquee wedding tent events for sale can be widely used as the wedding tent, party tent, exhibition tent, conference tent, different kinds of festivals tent, hajj tent, corporate events tent, sports tent, & temporary, semi-permanent or permanent building purpose etc.

How to order ?

Determine the nature of the use of the tent, is the exhibition tent or storage tent, wedding tent or catering function tent; Confirm the service cycle; Confirm the required area of the tent and the choice of materials, whether to use ordinary tarpaulin or glass curtain wall; Finally draw up the price and finalize the contract.

First we will determine your needs, and then determine the area and height (span) of the tent. After getting the customer's information, we will arrange designers and sales door-to-door measurement work to ensure that the tent can fit the surrounding environment, convenient for designers to design.

The designer is a more important part, after confirming the area and the role of the tent, the designer will carry out a preliminary design, and then modify it according to the needs of the party, and let the party confirm after the modification.

After the designer confirms the drawing, it will be handed over to the designer in the production department. The designer will place an order for the production demand, and then the workshop will produce the corresponding output.

After the completion of production, we will generally conduct trial construction, and confirm the preliminary appearance of the tent with the customer, so as to facilitate the modification of some details. If customer does not modify the requirements, subsequent production tasks will be carried out.

Finally, logistics procedures are carried out, and the logistics department will contact the truck driver for delivery. After all the procedures have been completed, our work is roughly over. Of course, if you need to build the process, we will arrange professional workers to install

Optional Accessories:

Ground anchor, anchor puller, weight plate, glass door, fire door, glass wall, ABS hard wall, Sandwich walls, auto-rolling door, decoration lining, flooring system, clear PVC windows sidewalls, transport rack for the glass door & walls, ramp etc; chairs , tables, & other furniture for the parties are also provided for your option.
