

Strong Durable Industrial Warehouse Tent , Storage Shelter Tent Fire Retardant

Our Product Introduction

Basic Information

- Place of Origin: Guangdong
- Brand Name: Tendars
- Certification: ISO9001, SGS Coc, CE
- Model Number: Big tent
- Minimum Order Quantity: 25 square meters
- Price: Reconsideration
- Packaging Details: 1, The aluminium frame structure packed into the bubble film 2, the pvc fabric roof cover and sidewalls are packed into the PVC fabric carry bag; 3, Hardware packed into the box.
- Delivery Time: 18days or To be negotiated
- Payment Terms: L/C, T/T, Western Union, MoneyGram
- Supply Ability: 50000 Square Meters per Month

Product Specification

- Product Name: Storage Shelter Tent
- Frame: Aluminium Alloy Square Profile
- Fabric Material: Double Coated PVC Fabric
- Fire Retardancy: DIN 4102, B1/M2
- Available Ground: Grass/sand Land, Soil Land, Concrete Ground
- Certification: ISO9001, CE, TUV
- Application: Trade Show, Wedding, Warehouse, Event
- Highlight: **Durable Industrial Warehouse Tent, Strong Industrial Warehouse Tent, Storage Shelter Tent Fire Retardant**

Product Description

Strong Durable Fire Retardant Warehouse Tent For Industrial Storage Shelter Tent

Description :

Product Name	Waterproof Outdoor Big Warehouse Tent with PVC Fabric for Storage and Warehouse
Frame	hard pressed extruded aluminium frame GB6061/T6
PVC Fabirc:	850g/sqm double PVC-coated polyester textile for roof ,650g/sqm pvc for side wall . 100% waterproof,DIN4102 B1 , M2 uv-resistant, flame retardant,
Connectors:	Hot-DIP Galvanized steel
Snow load	75kg/sqm (snow can't stay if use big degree roof pitch design)
MOQ	1 set
Fixing Solution	ground anchor, expandable bolt, weight plate, etc.
Size/Color	. Customized,Span Width:5meter/bay
Lead Time	7-15days
Warranty	20years
Trade Terms	FOB,CIF,EXW
Advantage	Factory Direct Sale ,Easy to be assembled and dismantled, movable. No pole inside, 100% available interior space.
Certificates	ISO9001:2015,DIN4102 B1 , M2,SGS
Application	Widely used for Weddings, Events, Parties, Celebrations,Sports,Tradeshow,
Package	1.aluminum frame packed in membrane film; 2.hardware packed in solid carton box; 3.roof and sidewall in professional PVC carry bag; 4.customized package
Payment	T/T, L/C, Western Union ,Alipay,
Services	One Stop Service includes Custom tent Design+Manufacturing+Installation+After-sale

Large storage tents meet the three major values of the storage needs of enterprises:

Value 1: can quickly solve the needs of enterprises for storage space

The construction of permanent storage facilities usually takes about 12 months to complete. For the company that continues to warehouse within the broken time, the long time required for the completion of the warehouse is a big problem, and the storage tent has a great advantage in this regard, and its system standard unit type tent can build a large warehouse of 10,000 square meters in 7 days.

Value 2: Effectively improve the efficiency of the enterprise's warehousing operation The HVAC and lighting system of the large warehouse can effectively reduce the operation energy consumption, make full use of the open space of the enterprise park, improve the output efficiency, effectively reduce the cost and time cost of transportation, storage and secondary damage of the leased warehouse, and improve the operation efficiency of the enterprise's warehousing.

Value 3: Mobility innovation Enterprise strategic planning Modular storage building system convenient disassembly function, realize the mobility of warehousing, help enterprises to solve the problem of fixed assets relocation while corporate strategy; Solved the inventory problem in the transition period of rapid development of enterprises; Help logistics enterprises to adjust logistics network nodes as needed, and can be used repeatedly without approval.

How to put away a large warehouse tent?

1. How to put away the automatic warehouse tent.

- (1) Put both hands on the pan head of the tent pole, the two supporting rods, and exert themselves to the middle to pull the two tent poles tight.
- (2) Gently use both hands to press down the disc. It should be noted here that when storing, it is best to open the door on one side to exhaust the air inside.
- (3) Fold the four corners of the tent in turn. When you fold the pole, pull it outward and then fold it. Note: Since the joint is locked, it is easy to damage the tie rod if it is hard folded.
- (4) Fold the four corners, lay them flat on the ground, roll up the book with the trend, and its volume is consistent with the size of the outsourcing, and then tie the rope. Remember to take your time so that the gas inside the tent can be completely drained. Then put it in a storage bag. Why use a roll instead of a fold? Because folding can cause serious damage to the coating, it is recommended to use a roll, do not forcefully fold the warehouse tent.

2. How to put away the folding warehouse tent.

- (1) First check whether the four corners of the folding warehouse tent bracket are abnormal. There are four spring buttons at the injection Angle, and the spring buckle of the tent should be fastened in the eye of the square tube, which can move up and down.
- (2) The spring buckle is loosened from the square hole. The spring buckles at all four corners are loose. Get everything out of the folding warehouse tent.
- (3) Two people stand opposite each other, each holding the two supports of the folded warehouse tent with both hands. It should be noted that two people should stand on the longitudinal fold of the canopy support to ensure that the top can be folded up when forced.
- (4) Two people together push the bracket towards each other so that the top cover can be folded.
- (5) When folded to 70%, the folded warehouse tent can be placed flat on the ground. Be careful with the cleaning of the floor and do not stain the warehouse tent.

- (6) Remove the corners of the tarp. The corners are placed on the four corners of the canopy, fitted with magic, and can be uncovered by Velcro.
 (7) Take out the canopy support, put away the four foot supports, and push the inner tube to insert.

FAQ :

Q: Is your company a factory?

A: Yes, we are a Factory, so our price is factory price with high quality.

Q: Is your tent strong and durable enough?

A: Yes. The main frameworks for Clear span 18m aluminum structure office commercial Tent (upright support and roof beam) are manufactured with high impact extruded anodized aluminum (6061/T6) so our tent structure is safe and strong

All connector parts are hot dipped galvanized.

Fabrics for Clear span 18m aluminum structure office commercial Tent are double PVC coated polyester, with water-proof, UV resistant, fire retardant, 5~10 life time under proper use.

Q: Can I change the length?

A: Yes, the tent can be decreased or extended freely

Take 10x30m for example, it can be used as 10x20m tent or 10x15, consist of 3m bay or 5m bay .

Q: What's price term can you offer ?

A: FOB, CIF, CFR.

Q: How long is the warranty period?

A: Guarantee one year. During the warranty period, we shall repair or replace the damaged part accordingly because of any damage due to quality problem.
