#### How long can the general service life of the tent be?

The first point: the comparison of different materials is relatively speaking, the material of the tent is divided into aluminum alloy, steel, PVC material, and various parts, but the choice is a class of aluminum alloy tent, the quality will be better, even if it is used outdoors for a long time, it can have a long service life, and the general service life is more than 20 years.

The second point: the use of performance guarantee for PVC tarpaulin, after special surface treatment, not only can prevent wind and rain, but also have anti-ultraviolet, moisture-proof, flame retardant and other properties, special to make the tent room is not affected by weather factors, to ensure that it can be used for a long time in the household, and the service life can even reach 15-20 years.

Third point: as a special use, such as the tent is used as a warehouse, the general service life is 6-12 years, if normal use is 10 years, the focus is to strengthen the maintenance knowledge of the tent, and promote the service life of the tent can be longer and longer.

From this point of view, the service life of the tent produced by our manufacturer also has long points, the important thing is to highlight the quality of the tent from the maintenance measures, and explain the basic nature of safety in use. It is better to recommend fixed maintenance.

#### Why choose warehouse tents?

- 1, tent warehouse has many unique properties. Easy to move, flexible arrangement, safe construction, easy disassembly, environmental protection material, can be expanded and reduced according to different circumstances, more easy to use.
2. The adaptability of the tent warehouse is strong, and the requirements for the site are not high. Can be built on hardened flat land, can also be built on grass, land, mountains and other terrain. It is also very advantageous in terms of cost.
3. Tent warehouse has good thermal insulation effect, and better heat insulation effect when placing some products that are more sensitive to temperature. It is also possible to customize the double-layer special insulation material according to the use, for mobile refrigerated warehouses.
4. Tent warehouse has lower cost than other material warehouses. The maintenance land in the later period has a higher cost performance.
5. Tent warehouse has good lighting performance, you can turn on less lights during the day, you can save a lot of electricity, more environmentally friendly. Tent warehouse, aluminum frame construction, the top is equipped with tarpaulin, with good light transmission, more conducive to long-term use.
