2.6m / 3m / 4m / 5m / 6m

Roof Pitch  
18° / 20°

Bay Distance  
3m / 5m

Maximum Length  
No limit

Main Profile  
65X65X2.5mm to 350X125X8mm aluminum alloy

Color  
Customized Color

Combo Set Offered  
0

#### The versatility of sports tents:

With the arrival of autumn, more and more people are willing to go out after meals and carry out outdoor sports. There are the competitive sports of basketball and indoor small football, as well as the inspiring sports of Frisbee and badminton, and of course, this must also include our classic game - table tennis.

These sites have a characteristic that they are small in scope and require specially planned sites. Football, basketball, badminton, Frisbee and other sports, but also need a breathable fully surrounded field. The sports tent can be made according to the different needs of these sports events.

For example, Frisbee, basketball, football and other tent venues need to be covered by barbed wire grid to prevent the target object from falling into an uncontrollable place after flying out of the field, and if it falls onto the road, there will be a risk of traffic accidents. Badminton, table tennis and other sports events of the tent venues, you need to do some windproof measures, you can use half ventilated half fully sealed curtain, both to ensure ventilation, but also to ensure the fairness of the game.

The emergence of sports event tents can provide customized solutions for many users at home and abroad. It can meet the needs of customers and provide protection for the safety and fairness of sports events.

#### Why is canopy construction so popular in the sports world?

The emergence of sports event tents can provide customized solutions for many users at home and abroad. It can meet the needs of customers and provide protection for the safety and fairness of sports events.

First of all, the tent building is a temporary building, the approval process is simple,

secondly, the basketball tent production and construction speed is fast, the main frame of the basketball tent can be completed in 7 days, the site construction of 1000 square meters generally only need one day to build completion, greatly shortening the construction period, and finally the cost of the basketball tent compared with the traditional basketball court, The cost of the tent is only one-third of the price of the fixed building, and the cost of the tent is low, and the capital return is fast.

The sports wood floor is used inside the basketball tent, which can not only meet the ball sense pursued by basketball enthusiasts, but also achieve the effect of anti-slip and increase friction; The assembled basketball tent can also meet the needs of night sports, even at night can also be played in a brightly lit environment; Indoor is also equipped with high-power air conditioning, making the tent room warm in winter and cool in summer. The basketball tent can also provide viewing seats and rest areas to meet more needs.

**Installation steps:**

The whole frame is connected by the loose knot method of locking screws so it's easy to install and move

There are slots on both sides of the aluminum alloy frame to facilitate the passage of strips on the pvc cover

There are slide buckles on the side wall pvc cover, so we can pull it aside or take it down, there is a zipper in the middle of each side wall cover, when it is closed, it can be used as wall, conversely, it will be used as door
