

1m 2m 3m Length Aluminum Stage Truss For Indoor Performing Arts Hall Aluminum Roof Truss Frames

Our Product Introduction

for more products please visit us on marquees-tent.com

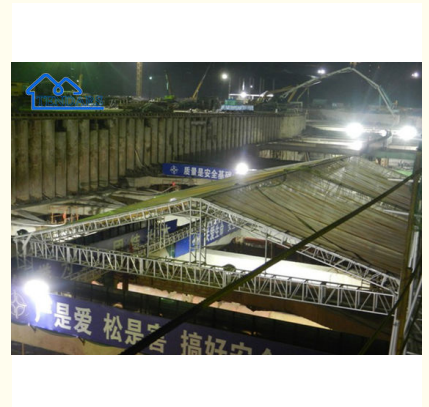

Basic Information

- Place of Origin: Guangdong
- Brand Name: Tendars
- Certification: ISO9001, SGS, Coc, CE
- Model Number: Truss Frame
- Minimum Order Quantity: 25 square meters
- Price: Reconsideration
- Packaging Details: 1, The aluminium frame structure packed into the bubble film 2, the pvc fabric roof cover and sidewalls are packed into the PVC fabric carry bag; 3, Hardware packed into the box.
- Delivery Time: 18days or To be negotiated
- Payment Terms: L/C, T/T, Western Union, MoneyGram
- Supply Ability: 50000 Square Meters per Month

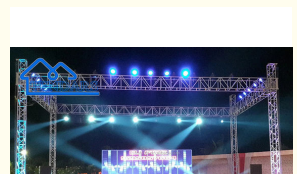

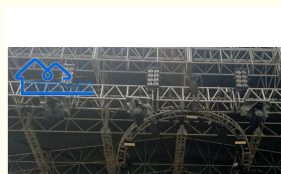

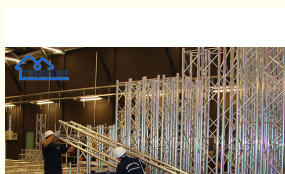

Product Specification

- Product Name: Truss Aluminum Structure
- Frame Material: Aluminum Alloy 6061-T6/6082-T6
- Connection Way: Bolt / Spigot
- Length: 1m,2m,3m,4m Customized
- Shape: Straight, Square, Triangle, Circle, Customized
- Brace Tube: 50*3mm/50*2mm/25*2mm
- Application: Lighting Truss Indoor Performing Arts Hall
- Highlight: 2m Aluminum Stage Truss,
3m Aluminum Stage Truss,
Indoor Stage Aluminum Truss

Truss length	1m,2m,3m Customized
Style	Straight frame ,round frame ,arc frame
Application	Events,party,concert,exhibiton ,catwalk fashion show,school, church,wedding,etc.

The environment where the truss is built:

Before the stage is built, it is necessary to determine the environment where the truss is built: mainly including the length of the stage, the length of the truss and the length of the stage as much as possible!

The height of the background board, this is very important! Each hotel decoration style is different, the height of the ceiling from the floor is also different, as long as the field measurement can be accurately designed in the background screen!

Confirm the dimensions of the trusses. It's a waste of time if it's too high for the trusses.

Usually see how other masters are built, it will not take a few times to master the skills. If there are many people in the bag, one person fixes the cable tie at one corner, and then pulls it in a row.

If you are a person, start binding the tape from one side, don't tighten the cable tie first, and then pull it when the row is fixed almost.

What factors affect the price of stage trusses?

The stage truss is an industrial metal product. The most obvious factors affected are aluminum and labor costs, but of course not all factors. When the price of aluminum ore fluctuates greatly, the price of aluminum is undoubtedly a major factor affecting the cost of stage trusses, and it will affect the delivery time, after all, in the case of expensive costs, inventory will be reduced.

Labor costs, as a stage truss from aluminum to finished products, manpower is undoubtedly the main factor. A qualified welder, a qualified product testing, etc., all need to be equipped with professional talents, when the cost of talent resources in the entire market increases, in other words, the production cost of any enterprise will be affected. situation.

FAQ :

1. Are you a factory or trading company?

We are a factory with more than 10 years' experience.
