		40m	5m	13.7m	4m

Width&Length available to be customized

Title	Shipping Container Container Shed Structure Building
Steel Frame	Hot Galvanised
Characteristics of PVC cover	Strong UV-resistant; Fire-retardant; waterproof
Life span	5-10 years
Wind or snow loading capacity	Strong wind and Heavy snow
Color	White, dark green
Sail Material	PVC
Product Keywords	super big tent,african tents big size,portable aircraft hangar tent

PROJECT OVERVIEW :

1. Width: 30m
2. Length: 35m
3. Framework: Hard-pressed aluminum alloy T6061/T6
4. Roof Material: 850g/sqm Block out PVC Fabric.
5. Application: for aircrafts
6. Long lifespan. The tent structures are with a lifespan of 20+ years.

FEATURES:

1. Waterproof. Tent roof is covered with waterproof PVC fabric.
2. Flame retardant. The tent tarp would help to slow the fire from spreading.
3. Sun-blocking. 850g/sqm PVC tarp with insulation layer would help to block sunlight.
4. Wind withstand. Tent structures from us can withstand wind at the speed from 80-120 km/h.

The benefits of Aircraft Hangar Tent :

The airport environment is a more complex scene, the construction of fixed buildings is not only time-consuming, but also easy to cause space waste due to changes in functional needs, the use of tents is a good solution to this problem, tent tents are economical, in a convenient way to actually solve the space required by the aircraft, in the use of many advantages.

The canopy is used as an aircraft maintenance space is more suitable, the use of modular building ideas, not only fast and convenient for later expansion, migration, function conversion, etc., in time is a large area to build the middle without column and no foundation treatment, will not cause damage to the environment, for the material, the manufacturer uses the high-quality 6082-T6 aviation aluminum as a frame, the structure is stable and can be used for a long time.

Manufacturers can provide A variety of structural modeling, such as: A top, peach, flat top and herringhead top, etc., can be selected according to different models and uses, while the space is fully configured, gold can be put into use after the completion of construction, relative to traditional architecture, tent shelter price and very convenient, to solve various problems in the hangar.

Our service:

1. Provide professional person to communicate with you before the order.
2. Provide strict quality check for each part, each process before export.
3. Provide optimum system solution based on each client's specific requirement.
4. Provide complete post-sale service, including installation, technical guide and training.
