Recommended combination Star Room:

1. 3.8m + 2.7m: master bedroom with a diameter of 3.8m and bathroom with a diameter of 2.7m;
2. 3.3 m + 3.3 m: master bedroom with a diameter of 3.3 m and bathroom with a diameter of 3.3 m;
3. 3m + 1.2m: master bedroom with a diameter of 3.3m and bathroom with a diameter of 1.2m;

The combination of star room space is more spacious, and the occupants will be more comfortable in the indoor activities. The appearance of 360° transparent design, there is no metal skeleton in the room, and the unique and beautiful design makes the star room bubble room more attractive.

In the room, the dome has electric curtains, and the side circle has manual curtains, effectively ensuring privacy and security, so that visitors can sleep more comfortably. Placed outdoors, not only can travelers directly enjoy the local characteristics of the landscape, but also to meet the needs of everyone lying in bed at night to look up at the stars. 360° full transparent free vision, whether in the hustle and bustle of the city, or in the mountains and fields, you can be integrated with the environment in it.

During the day, the sun calls you early; At night, the stars accompany you to sleep, pillow vast stars, accompanied by the quiet and fresh air in the field, unload the fatigue of the day, go to sleep, and wake up by the first ray of sunshine the next morning, which is probably the years we want to quiet well. Star room also has the characteristics of modular installation, rich functions, and good wind resistance of materials, which can be used in scenic spots, homestays, resorts, outdoor hotels, camping and other scenes to provide different living experience for travel.

FAQ :

1.Q: what are the advantages of prefab house compared to the traditional building?

A: Better isolation of sound and heat, Better fireproof and anti-seismic, Wind resistance, Time and labor saving, More usable area, Excellent termite-proof capability
