Product Description

Outdoor Travel Hiking Round Dome Tent Luxury With Heat Insulation Space Dome Tent

Features :

Nice Yard Accent: This product is mainly used in long-term settings, you can design and decorate it according to your preferences. Transparent design allows you to better appreciate the night vision. You can have a little personal world free of interruptions during quarantine. It can also be used as a small greenhouse to grow plants out of season.

What you will get: The product comes with a storage bag; ground spikes (both lawn and deck models) to increase stability, all necessary PC tubes and connectors, and a PVC cover. Improved material and sewing technology give our products greater toughness and durability.

HIGH STABILITY: If installed properly, this geodesic shape can withstand up to 31 mph hurricane weather and max. 90lbs of snow pressure. For the best experience, please make sure to use the plastic nails and metal clamps we provide correctly.

Best Winter Weather: This winter tent set contains a waterproof and warm winter PVC cover. We increase the length of the PVC cover by 4 inches, which solves the problem of plastic shortage due to shrinkage at low temperatures.

Connectors	Steel

Our advantages in the ball curtain products:

1, 15 years of prefabricated building experience: we have a professional prefabricated modular building design team, has a deep understanding of the spherical grid structure, can create a large-span spherical structure at any time, and has the ability to resist various outdoor wind and rain, bringing a safe viewing space!

2, research and development of new inner curtain materials: innovative use of special inner curtain materials, self-developed pinhole soft film curtain can minimize the scene echo, bring good sound field effect for viewing!

3, the new negative pressure ball screen patent technology: the negative pressure ball screen technology can make the hollow structure of the curtain and the frame form an air bag, which can maintain the appearance of beautiful and effectively form an ideal projection spherical carrier, improve the overall projection effect of the ball screen!

4, integration of leading equipment and technology: in terms of ball screen technology, we have the industry's top partners, not only can integrate the world's leading ball screen splicing and integration software, achieve rapid integration, seamless integration, reduce the number of projectors, reduce costs, but also can access holographic, light projection and other novel technologies, to bring you a unique ball screen projection form!

5, one-stop integration solution: From the pre-planning, custom design, production and construction of the ball curtain needs, we can one-stop solution, spherical specifications can provide 3-100 meters diameter, the ball can be customized to create a variety of shapes, the external sphere can be customized pattern painting, with a variety of elements of the fusion program to meet the ball curtain application of different theme style activities!
