Product Description

Outdoor Windproof Clearspan Pvc Marquee Tent For Outdoor Sport Event Used Heavy Duty Marquee For Sale

Description :

Because of our incredible buying power, the Tent is able to maintain a finely balanced range of stock, from lightweight recreational gazebos up to industrial quality, heavy duty semi-permanent marquee structures, either with steel or aluminium framework, and all with free next working day delivery available.

If you're in the market for the best marquee available for the money, then we are able to recommend two different types of structure, depending on the size required. Both frames use a similar quality of cover.

Main Frame Structure	Clear-span Width: From 3m to 70m, length is no limit
	Material: High-quality aluminium frame. Hard Pressed Extruded Aluminum Alloy 6061-T6& 6082-T6

	Material: Both sides lacquered PVC coated fabric
	Features: UV Resistant, Waterproof, Fire RetardantB1
Frame connector	Steel frame with plating processing
Sidewall	PVC Wall, Glass Wall, ABS Wall, Sandwich Wall
Wind Load	max. 100km/h
Snow Load	10cm Thickness Floating Snow,75kg/sqm
Temperature Index	-30 Degree Celsius to +70 Degree Celsius
Life Time	Aluminum frame more than 15 Years. PVC fabric 5-10 years
Certification	SGS,ISO 9001:2008,IAF.NAC

Introduction:

The marquee can come in widths of 3m, 4m or 6m, and in lengths of 2m all the way up to 24m and beyond. Each 'bay' of the marquee is 2m in length, and the window sidewalls each contain a privacy blind, which can be rolled up or down depending on your preference and the application of the Elite Marquee. The covers no longer connect to one another using zips, as historically the PVC is so robust that there aren't any zips which are strong enough to contain it.

Frame : Both steel and aluminium frames are available upon request, specifications and usage purpose
 Custom tent structures can be built up according to your needs.

No bearing column in the structure, you can use the space fully.
The span of our tents from 3m to 90m in different specifications
Fabric : PVC Coated Polyester Fabric
High quality double PVC coated polyester textile:
Waterproof;
Flame retardant
UV resistant;
Temperature resistance: -30~70;
Long life.

FAQ :

Q: Are you factory or trade Company?

A: We are the OEM factory specialized in tent more than 10 years.

Q: What's the right size of tent do I need?

A: Generally speaking, if you just use chair inside the tent you need 0.8 to 1.2 sqm space for each person, if you use tables and chairs together, you need 1.3 to 1.5 sqm space for each person, if you use no tables and chairs together at all, you just need 0.6 sqm space for each person.

Q: Is your tent strong and stable enough? How about the wind loading?

A: Yes, the main frameworks (upright support and roof beam) are manufactured with high impact extruded anodized aluminum (6061/T6) so our tent structure is safe and strong and can resist wind up to 100 km/hr.
