Wind Load	100KM/H
Installation	Easy to be assembled and dismantled, movable. No pole inside, tent space can be 100% utilized.
Space	No pole inside the tent,100% available interior space

#### Advantage of sport tent :

For the traditional stadium with high cost, the construction efficiency and lower cost of indoor sports venues have attracted the favor of many investors. In terms of function design, the design mainly refers to the parameters of international standard basketball court, badminton court and volleyball court, and provides standard sports facilities and supporting facilities.

The indoor sports tent is a flexible building structure that can provide sufficient temporary or semi-permanent space, while the requirements for the site are relatively low, and can be built on a variety of ground, or even on the roof. In addition, the tent has the advantages of being mobile and reusable, and can be relocated and built between different sites, which effectively solves the problem of insufficient sites.

Compared with the traditional stadium building, the construction of indoor sports stadium tents does not need steel and cement, and even can be directly built on the original outdoor basketball court, football field and other venues, if short-term use can also choose the way of tent rental, which undoubtedly greatly reduces the cost of the stadium.

Indoor sports venue canopies can be tailored according to the size and needs of the venue, while suitable for sports venues of many types of canopies, and with sun protection, wind resistance, waterproof, flame retardant and other characteristics, can be widely used in basketball, football, badminton, tennis, swimming, skating and many other sports.

#### Why sport tents are so popular ?

First of all, the outdoor sports tent is a temporary building, the land approval is not as complicated as the traditional building, it may not be approved down, his approval is very simple, the construction of the ground is not too much requirements, like the general grass, cement or marble ground can be built in the community or park and so on as long as the ground is flat. It can be operated.

Outdoor sports tent using modular construction, build quickly, while building without too much noise, will not affect the normal life of others, the tent is 6061-T6 aluminum alloy and pvc material tarpaulin, rain, mildew and flame retardant, the whole is very stable and safe, the use can be assured.

#### FAQ :

##### 1. Can you print our logos on tent ?

Yes. Customized logos can be print on the tent fabric according to your requirements.

##### 2. Is that factory price?

Yes. We assure you all prices are factory price.

##### 3. Is your tent strong and stable enough ? How about the wind loading ?

Yes, It is can resist wind up to 100 km/hr, if the wind or snow is very very heavy, please tell us and we will strengthen the tent to keep you safe!
