Wind Load	100KM/H
Installation	Easy to be assembled and dismantled, movable. No pole inside, tent space can be 100% utilized.
Space	No pole inside the tent,100% available interior space

What are the requirements for the floor of the warehouse ?

1, First of all, we must choose the ground level, the general cement floor can be, but the premise is to ensure that the ground can not be destroyed, otherwise the expansion screws and other parts may fall off or off the ground during installation. What are the requirements for the floor of the warehouse? Remember the following 4 points

2, if it is a permanent storage warehouse tent, you can choose to build on the concrete ground, after digging holes in the ground for pouring concrete fixed, this way is stable and safe.

3, if it is in the grass or mud to build a tent, generally need to use a very long steel nail on the ground. Otherwise the tent could easily shake. However, the general warehouse tent will not choose to build on the grass, and the outdoor grass is still a wedding tent and some activity tents are more common.

4, if it is built on the ground such as marble or tile, it is mainly necessary to use the bearing plate to press the column bottom plate, and then place cement blocks or stone blocks and other heavy objects on the bearing plate to fix the warehouse tent. However, the use of load-bearing plates generally requires a certain amount of space, and there is also a lack of aesthetics.

Product type:

Tarpaulin is a very main component of the tent, its quality directly affects the safety of the partial tent, but also closely related to the safety of the activity, so the choice of high quality tarpaulin is very important.

The tent design concept is safe, fast and elegant. Products span from 3 meters to 60 meters, the main types are: Small tent, conical tent, garden tent, party tent, festival tent, holiday tent, wedding tent, large tent, curved pillar tent, arc canopy, pointed canopy, polygon tent, double canopy, etc., at the same time for customers to tailor the required products, provide creative space solutions to meet the needs of customers with a full range of accessories to choose, All the accessories increase the function and use of the tent to meet the various needs of customers.

RFQ :
