Clearspan width	15m
Length	no limit, extended in every 5m
Bay distance	5m
Eave height	3m
Ridge height	5.4m
Roof pitch	18°
Longest component	8.5m

About the party tent :

Unit combined structure, canopy span small series from 10 to 15 meters, large series From 20 to 30 meters.

- The bracket is made of high-strength all-oxide aluminum alloy profile or steel, stable and durable. tarpaulin The material is made of building membrane material or ordinary PVC tarpaulin, which is small in volume after disassembly and easy to transport and store.
- Easy and quick installation and disassembly.
- The movable wall can be opened and closed around. (There are soft walls and hard walls)
- There is no special requirement for building site, generally flat land such as grass, asphalt, cement Yes.

Materials of the tents :

First, the structure is high strength aluminum alloy profile or steel

- High strength aluminum alloy profile tensile strength 215 N/M square meters
 - GB Q235 steel silver metal surface paint
- Second, the tarpaulin is a double PVC synthetic fiber tarpaulin or building film material
- Fiber high strength polyester 1100 Dtex
 - Weight NF EN ISO2286-2 standard 650 g/m²
 - Tensile strength (warp/weft) NF EN ISO1421 standard 280/260 daN/5cm
 - Tear strength (warp/weft) DIN 53.363 standard 28/25 da
 - Light transmittance NFG 38.511 standard 13%
 - Applicable temperature -30 /+70
 - Fire response DIN 4102 Class B1

There are several ways to fix the canopy:

- Steel fastening
Use steel to secure the tent on grass, asphalt or other soft ground.
- Expansion bolt fixed
Secure the tent to the concrete floor using expansion bolts.
- Fixed with weights
If the field is not allowed to use steel or expansion screws can use cement pier, water tank and Sandbags to secure the tent.
- Load-bearing floor system
Use a load-bearing floor system to secure the canopy, eliminating the need for additional steel or expansion screws.
- Embedded parts fixed
For large bungalows with a long use time, it is necessary to make foundation embedded parts, tent structure and

Embedded part connection.

RFQ :

***Q1. Does your company provide any help to install the tent?**

A:Yes, usually we will send manual guide books or Video to help customer installation.If customer need our engineer come to their country to help install,that is also workable.
