Structure.

#### RFQ :

#### Q1: Is your tent strong and stable enough?How about the wind loading?

Yes.The main frameworks (upright support and roof beam) are manufactured with high impact extruded anodized aluminum (6061/T6),so our tent structure is safe and strong enough to resist wind up to 100 km/hr.

#### Q2. Do you accept container loading inspection?

You are welcomed to send an inspector, not only for the container loading, but any time during the production time.

#### Q3.Does your tent be able to installed repeatedly? What is the life span?

Sure, our tents can be assembled and dismantled easily and repeatedly with small transportation size. The lifespan of aluminium framework can reach 15-20 years, and 5-8 years for PVC fabrics depending on different conditions of usage.
