Product Description

Outdoor Custom Color Hotel Event Party Tent Sound Proof Structured Tents Wedding Tents For Sale Amazon

Product Specification:

Product Name	Advanced Quality Outdoor Custom Color Hotel Event Party Sound Proof Structured Tents
Material	Aluminum Alloy T-6061
Brand	TENDARS Tent
Origin	Jiangsu, China
Application	Wedding, Ceremony, Event, Festival, Stadium, Celebration, so on

Structure and specification of the tent :

Due to the different requirements of travelers, the tent design is also divided into different structural forms, which can be divided Single room structure and canopy structure:

The space of the single-room structure is designed for sleeping only, focusing on reducing volume and weight. And the pongee knot The tent is set up in the sleeping space with a door outside the hall, in addition to wind, rain and more advantages

In addition, space is also set up for the presence of equipment.

In order to adapt to different temperature environments, the tent is divided into different structures such as single/double/three layers:

The advantage of single layer is that it is light/economical/small in size/the production process is relatively simple. Double layer is different from single layer in design

An inner tent with good air permeability is added to the top, which mainly solves the contradiction of water formation on the inner wall of the single-layer tent. Because in comparison

In the cool season, the hot air excluded by the human body will condense on the inner wall of the tent under the action of the cold air outside.

Water flowing down the inner wall of the tent will wet the sleeping bag, and after the inner tent is added, the outer tent is not directly connected to the bottom of the inner tent

The hot air emitted will pass through the inner tent, and the condensation on the outer tent can direct the ground, in this sense, single

Layer tents are mainly suitable for warmer areas or seasons, and double tents are suitable for cool seasons or cold areas. Three-tier tent

The design is to add another layer of cotton curtain to the inner tent, further enhancing the warm effect, this tent at minus 10

Used in the environment of degrees, the temperature in the tent can rise to about zero.

RFQ :

1)Q: How to assemble your tents?

A: We will provide the manual and video for you to study. If you need, we can send a technician to help you in your country.

2)Q: How to choose the size of the tent?

A: The size depends on how many people you want to stand, sit or have dinner in this tent. And the size also depends on the land space you will put up this tent. Normally, we advise 1-1.5sq.m/person.

3)Q: What is the warranty and safety of your tents?

A: Our tent is made by European standards and we own the CE/SGS quality management system certificate. Besides, we can design your tents with the emergency door and exit & panic lights to make sure the safety when have an emergency situation.
