Tent main frame :

Pillar: Also known as a pillar, standing vertically on the ground. Any of various types having one straight or two or three connections. Somewhat tubular

The bend part of the pillar needs to be connected with wire. The general material is fiberglass steel, the general is 7 sections.

Border: Used in bullet-type tents or hut-type tents, with short bar-like materials to form pillars or beams.

Dong: The very top part of the tent.

Roof: The part that forms the slope of a tent.

Wall: Part of the wall on the side of the tent. Some tents don't exist at all.

Canopy: A section of a roof that opens forward and is supported by other pillars.

Door: The entrance and exit of the tent. A window can be provided on the other side.

Floor mat: a mat laid on the ground in a tent. If the moisture is heavy, it is necessary to lay another layer of bamboo MATS.

Flying mat: A mat laid on the roof of a tent to protect it from strong sunlight. The second roof

Main rope: also known as column rope. Separated from both ends of the pillar, the function is to avoid the tilt of the pillar, and fixed with nails.

Corner rope: extended from the four corners of the tent curtain and fixed with nails.

Waist rope: extended from the bottom edge of the roof of the tent curtain and fixed with nails.

Nails: Also called ground nails, used to drive into the ground to secure the bottom edge of ropes and tent curtains. There's wood. Made of metal and synthetic resin.

Wooden hammer or hammer: used when driving nails into the ground. A part made of wood or metal and attached to a main rope or corner rope.

Cable drawing

Through two small holes in between, you can move to control the cable.

Bag: The cloth bag with the curtain and the pillar, nails and wooden hammer.

FAQ :

1)Q:How to assemble your tents?

A:We will provide the manual and video for you to study.If you need,we can send a technician to help you in your country.

2)Q:How to choose the size of tent?

A:The size depends on how many people you want to stand,sit or have dinner in this tent.And the size also depends on the land space you will put up this tent.Normally,we advise 1-1.5sq.m/person.

3)Q:What is the warranty and safety of your tents?

A:Our tent is made by European standards and we own the CE/SGS quality management system certificate.Besides,we can design your tents with the emergency door and exit & panic lights to make sure the safety when have an emergency situation.
