Tips for repairing gaps in tents and tarpaulins :

I believe many people have encountered this situation, that is, when the whole curtain is still very new, There is a single place but broken a hole, lost regret, how to do? Below China insulation The tent trading network will introduce a method to repair the hole in the curtain. Our original plan is to find a garment, sew it on a cloth lining the curtain, and then brush it Glue. However, after consulting on the Internet, I know that it is not necessary to sew, and directly use the glue of the repair package Water on the line, the strength of the glue can meet the needs of use. The bottom of the ledger will not It's too hard to stick with glue. The next work is simple, touch the bottom of the repair fabric, better than the size. The enhanced repair kit comes with a large piece of fabric to repair the 6-7cm hole Under the words. Compare the size of the break and cut two pieces of fabric slightly larger than the break. Optimum bundle The corners of the cloth are rounded, and it does not fly easily. Cover the outside of the bottom of the account first, the best non-PU side of the cloth on the outside, Contrast wear resistance. Apply glue evenly, especially around the edges, to coat well and then stick Go up, and if you are not assured after pasting, you can paint another one on the seam, foolproof. Need to be Notice that kailas's glue dries ten times faster, in ten seconds, So the action of glue must be very fast. Flip it over and put another piece on this side, even if If you don't care about the beauty, you can apply glue at the joint, it will be stronger Fixed.
