About tent :

With the development of society and the progress of science and technology, the forms and carriers of cultural exhibitions are constantly changing. Traditional exhibition methods can no longer meet people's diversified and personalized needs, so more and more exhibitions begin to use tents as a carrier to bring more vivid and interesting experience to the audience.

The canopies are flexible, and they can be customized according to the needs of the exhibition, adapting to different space requirements. Whether it is an indoor exhibition or an outdoor exhibition, the tent can be flexibly adjusted in size, shape and height to meet the requirements of the exhibition. Exhibition organizers can adjust the layout according to different needs according to the type and quantity of exhibits, making the exhibition more flexible and creating the most reasonable and effective display space.

The large outdoor exhibition tent adopts aluminum frame structure, tarpaulin covers the outside, and the interior is equipped with lighting, power sockets, air conditioning and other facilities, making the interior of the tent comfortable and pleasant. At the same time, the tent is also equipped with fire protection facilities to ensure the safety of personnel. Since the canopy can be reused, the cost of the exhibition can be reduced.

At the same time, because the tent can be built in a variety of venues, it can attract more visitors, bring more economic benefits to the exhibition organizers, and improve the popularity and social influence of the exhibition. As a new type of cultural exhibition carrier, the tent has great potential and advantages. In the future, with the continuous progress of technology and the continuous deepening of application, the application prospect of the tent in the cultural exhibition will be broader.

FAQ :

Q. Why choose us?

We are the real source manufacturer cover over 60000 square meters.

Q: What size tent is necessary for your special event?

A person must first determine tent usage. If a tent is being used for dining purposes and round tables are being used allow 10-12 square feet per person. If banquet style tables are being used allow 8-10 square feet per person. If the purpose is for cocktail service allow five to six square feet per person. Contact us for all your specific questions and more information on tent types.

Q: Can you print our logos on tent?

Yes. Customized logos can be print on the tent fabric according to your requirements.
