

Large Movable Temporary PVC Warehouse Storage Tent House Waterproof Shelter Logic Storage

Our Product Introduction

for more products please visit us on marquees-tent.com

Basic Information

- Place of Origin: Guangdong
- Brand Name: Tendars
- Certification: ISO9001, SGS, Coc, CE
- Model Number: Big tent
- Minimum Order Quantity: 25 square meters
- Price: Reconsideration
- Packaging Details: 1, The aluminium frame structure packed into the bubble film 2, the pvc fabric roof cover and sidewalls are packed into the PVC fabric carry bag; 3, Hardware packed into the box.
- Delivery Time: 18days or To be negotiated
- Payment Terms: L/C, T/T, Western Union, MoneyGram
- Supply Ability: 50000 Square Meters per Month

Product Specification

- Product Name: Tent House Waterproof
- Material: Aluminum & PVC
- Roof Cover Fabric Material: 850g/sqm Double PVC-coated Polyester Textile
- Roof Fixing: Bar Tensioning
- Side Wall: PVC Walls, glass Wall, ABS Wall, sandwich Panel Wall, etc.
- Application: Exhibition/party/event/trade Show/wedding/warehouse
- Ground Situation: Grassland, earth Land, asphalt, cement Ground, marble, etc.
- Fire Resistance: DIN4102 B1/M2(Europe Standard)
- Highlight: Movable Warehouse Storage Tent, Temporary Warehouse Storage Tent, Waterproof Warehouse Storage Tent

Product Description

Large Movable Temporary PVC Warehouse Storage Tent House Waterproof Shelter Logic Storage

Description :

Main Profile	Material: Hard pressed extruded aluminium 6082-T6, 6061/T6 Features: Stainless
Cover	Material: Double PVC-coated polyester textile, 750g-900g/m ² Features: Waterproof, flame retardant to DIN4102 B1, M2, CFM, UV resistant
Eave Connection	Hot-dip Galvanized twin steel plate
Wind Loading	100km/hour

Industrial storage tent "six worries":

1, structural safety more worry

Wind resistance

Awnings are elastic buildings, also known as flexible buildings. Due to the light weight of the tent, the structural design highlights the flexibility. The form of restraint, abandoning the traditional consolidated column foot, adopts the hinged connection mode, in the resistance to wind load, through

The rotation of hinges through the bottom of the column can consume wind energy, and the overall structure will not be damaged.

Canopy wind resistance: 6-8

Fire resistance

The standard enclosure of the warehouse adopts PVC knife scraping coating cloth. The flame retardant level of the material is B1, which is a refractory material, that is, bright

The fire is extinguished within 2 seconds of leaving. With the corresponding fire protection facilities and management, it can be widely used in various levels of warehouses.

2, site approval more worry

Fast removable warehouse

The Bureau of Urban Administration and Law Enforcement reports for approval every 3-6 months.

Traditional warehouse approval process (cumbersome and lengthy approval process)

Construction project planning permit - commencement Certificate - completion acceptance - completion filing

3, foundation treatment more worry

The requirements for the foundation are not high when the industrial storage tent is built, and the terrain is adaptable, even in a certain slope

The surface can also be easily qualified, reducing the difficulty of site construction and shortening the construction time.

The base of the tent is fixed with bolts, steel and bearing plates that can be disassembled repeatedly to facilitate the fast movement of the tent.

Expansion bolts are suitable for breakable cement floors.

Steel is suitable for grass.

The bearing plate is suitable for unbreakable ground.

4, build speed more worry

Industrial storage tent adopts modular design, lightweight component materials to ensure transport, construction and easy, flexible. in

Equipped with 16 workers and related equipment, a small and medium-sized tent company can complete more than 1,000 square meters of construction in a day

Build volume, can fully meet customer requirements for fast delivery.

5, warehouse scheduling more worry

The industrial storage tent allows the enterprise's storage space to be moved to a reasonable location at any time according to the production needs, and can be

Split use, easily cope with the warehousing needs of multiple departments of the enterprise.

6, function matching more worry

Modern enterprises have higher and higher requirements for storage space, in order to meet the different storage needs of various customers Canopy Technology Co., Ltd. through research, improvement and innovation, in the industry for the first time put forward the integrated storage solution

The road integrates systems such as lighting, fire protection, information, electricity, ventilation, water supply and drainage in the storage shed itself, and in the living

In the production stage, the major systems can be independently installed and disassembled at will, simple and fast.

FAQ :

Q:Why do I need to know the use of tents and local climate?

To know the use of tent and local weather, I can provide you with advice better, and it is very useful for our designer's work.
