Fixing Ground	Can be fixed on all kind of ground
Feature:	1, Easy to be assembled and dismantled in modular structure, and removable for other place using.
	2, No pole inside, 100% available interior space
	3, Durable for permanent using or resale out
	4, Water-proof, UV resistant, flame retardant, snow resistance, tear resistance

#### Details:

**Structure:** The Arcum Tent Building Hall is a versatile and durable structure designed for various events and industrial purposes. It features a unique curved roof design that provides ample height and interior space, allowing for maximum functionality and aesthetics.

**Materials:** The tent is constructed with high-quality materials to ensure structural integrity and longevity. This may include robust aluminum or steel frame components and heavy-duty PVC fabric covers that are waterproof, fire-resistant, and UV-resistant.

**Size Options:** Arcum Tent Building Halls are available in a range of sizes to accommodate different event and industrial requirements. They can be customized to meet specific size specifications, with options for width, length, and height to suit various applications.

**Customization:** The tent can be customized to incorporate additional features and accessories based on the intended use. This may include sidewall options (such as clear or solid panels), flooring solutions, insulation, lighting and HVAC systems, and branding opportunities for corporate events or exhibitions.

**Installation:** The Arcum Tent Building Hall is designed for easy and efficient installation, with a modular construction that allows for quick assembly and dismantling. It can be installed on various types of surfaces, including grass, asphalt, and concrete, using anchoring systems or weighted ballasts for stability.

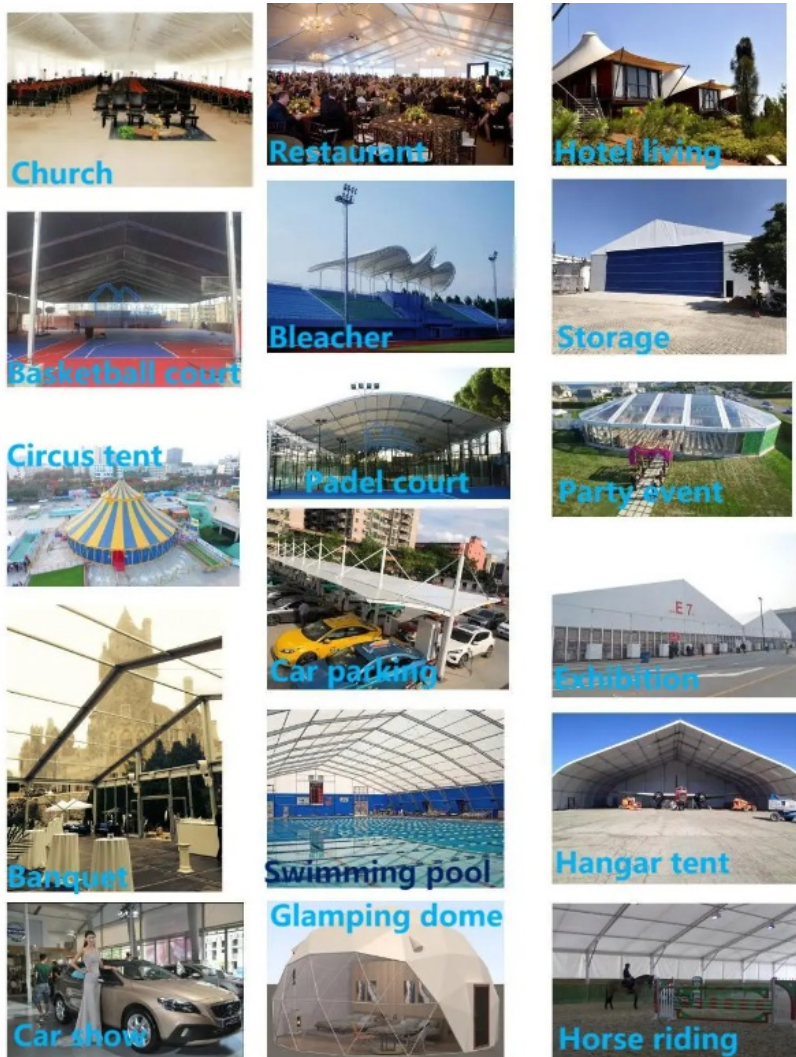

**Versatility:** With its spacious interior and customizable features, the Arcum Tent Building Hall can accommodate a wide range of events and industrial applications. It is suitable for use as temporary or semi-permanent structures for trade shows, exhibitions, conferences, weddings, parties, warehousing, storage facilities, workshops, and more.

**Durability:** Built to withstand harsh weather conditions and heavy use, the Arcum Tent Building Hall offers durability and reliability. Its sturdy frame construction and weather-resistant fabric covers provide protection against wind, rain, snow, and UV exposure, ensuring a safe and comfortable environment for occupants.

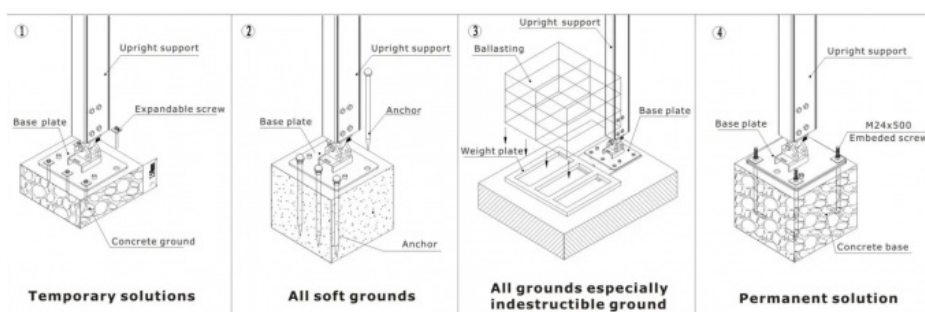

**Portability:** Despite its size and robust construction, the Arcum Tent Building Hall is portable and can be transported to different locations as needed. It can be disassembled and packed into compact bundles for convenient storage and transport, making it an ideal solution for temporary or traveling events.

**Compliance:** The Arcum Tent Building Hall may comply with relevant safety and building codes, depending on local regulations and requirements. Manufacturers may provide certification or documentation to ensure compliance with industry standards for structural stability, fire safety, and occupancy capacity.

#### Product application:
