

## Aluminum Frame Marquee Arcum Tent For 500 People For Wedding Banquets And Trade Show Exhibitions

### Our Product Introduction

#### Basic Information

- Place of Origin: Guangdong
- Brand Name: Tendars
- Certification: ISO9001, SGS, Coc, CE
- Model Number: Big tent
- Minimum Order Quantity: 25 square meters
- Price: Reconsideration
- Packaging Details: 1, The aluminium frame structure packed into the bubble film 2, the pvc fabric roof cover and sidewalls are packed into the PVC fabric carry bag; 3, Hardware packed into the box.
- Delivery Time: 18days or To be negotiated
- Payment Terms: L/C, T/T, Western Union, MoneyGram
- Supply Ability: 50000 Square Meters per Month

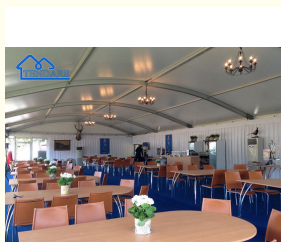

#### Product Specification

- Product Name: Aluminum Frame Marquee Arcum Tent
- Cover Material: 850gsm PVC Coated Fabric
- Max Wind Loading Capacity: 100km/hour
- Allowed Temperature: -30° To 70° Environment
- Outer Tent Waterproof Index: <1500mm
- Side Wall: 650gsm PVC Coated Fabric
- Product Size: Customized
- Usage: Party, Wedding, Event, Trade Show

## Product Description

### Aluminum Frame Marquee Arcum Tent For 500 People For Wedding Banquets And Trade Show Exhibitions

#### Product Specification:

Frame Material	Aluminum Alloy
Cover Material	850gsm PVC Coated Fabric
Max Wind Loading Capacity	100km/hour
Allowed Temperature	-30 to 70 Environment
Outer Tent Waterproof Index	<1500mm
Side Wall	650gsm PVC Coated Fabric
Usage	Party, Wedding, Event, Trade Show

#### The main technological features:

**Aluminum Frame Construction:** Arcum tents feature a robust frame structure made of high-quality aluminum alloy. Aluminum is chosen for its lightweight properties, corrosion resistance, and strength, making it ideal for supporting the weight of the tent and withstanding various environmental conditions.

**Arcum Design:** The distinctive Arcum shape of these tents incorporates curved roof beams and a peaked roof profile. This design not only enhances the aesthetic appeal of the tent but also provides greater interior space, improved water runoff, and increased wind resistance compared to traditional flat-roofed tents.

**Modular Components:** Arcum tents are designed with modular components that can be easily assembled and disassembled. This modular construction allows for efficient transportation, setup, and customization of the tent to suit different event requirements and site conditions.

**Interlocking Frame System:** The aluminum frame components of Arcum tents typically feature interlocking connections or fittings that securely join the frame elements together. This interlocking system ensures stability and rigidity, preventing movement or shifting of the frame during installation or use.

**Tensioned Fabric Cover:** The roof and sidewall panels of Arcum tents are typically made of high-strength PVC-coated polyester fabric. This fabric is tensioned over the aluminum frame using a combination of ratchet straps, tensioning systems, and anchoring methods to create a taut and smooth surface that resists sagging and flapping in windy conditions.

**Weather Resistance:** Arcum tents are engineered to withstand various weather conditions, including rain, wind, snow, and UV exposure. The combination of durable aluminum frame components and weather-resistant fabric covers ensures long-term performance and protection for occupants and equipment inside the tent.

**Engineering Standards:** Manufacturers of Arcum tents adhere to strict engineering standards and safety regulations to ensure the structural integrity and stability of their products. This may include conducting structural calculations, wind load analysis, and material testing to verify the strength and durability of the tent design.

**Customization Options:** Arcum tents offer a range of customization options to meet specific event requirements and preferences. These options may include sidewall configurations (e.g., clear, solid, or windowed panels), flooring solutions, lighting and HVAC systems, branding and signage opportunities, and additional accessories such as doors, windows, and entrances.

#### FQA:

##### 1. Are you a Trading Company or Manufacturer?

We are a manufacturer specialized in Folding tents, Outdoor umbrellas, Beach flags, Advertising Banners;

##### 2. What's the location of your factory?

Our factory located in Guangzhou, Guangdong Province;

##### 3. Can you print any logo for customer?

Yes, both OEM and ODM is available;

#### 4.Do you offer the free samples?

Sample is available but charged, but we promise to refund the sample fee once you place the bulk order.

#### 5. How long does sample take?

Sample will be ready within 5-7 days, depends on your printing and material requirements.

#### 6.How long does normal order take?

Normally 15-25 days, if you want urgent delivery , we will find solutions.

#### 7. What's the FOB port?

Shenzhen port or Guangzhou port are both ok, 2 hours by truck.

#### 8.Our Advantage?

Cost effective: Located in Guangzhou--the Factory of the World, we can provide you all kinds of umbrellas with low price;Time effective: we promise to make the mass delivery within 30 days Service effective: Our sales people promise to reply your enquiry within 12 hours.
