

Manufacturer New Designs Outdoor Custom Premium Arcum Tent For Wedding, Arch Ceremony Party Event Etc

Our Product Introduction

Basic Information

- Place of Origin: Guangdong
- Brand Name: Tendars
- Certification: ISO9001, SGS, Coc, CE
- Model Number: Big tent
- Minimum Order Quantity: 25 square meters
- Price: Reconsideration
- Packaging Details: 1, The aluminium frame structure packed into the bubble film 2, the pvc fabric roof cover and sidewalls are packed into the PVC fabric carry bag; 3, Hardware packed into the box.
- Delivery Time: 18days or To be negotiated
- Payment Terms: L/C, T/T, Western Union, MoneyGram
- Supply Ability: 50000 Square Meters per Month

Product Specification

- Product Name: Outdoor Large Custom Arcum Tent
- Place Of Origin: Guangdong, China
- Color&Size: Custom
- Tent Frame: Hard Pressed Extruded Aluminium Alloy 6061/T6
- Roof Cover: 850g/sqm Double PVC-coated Polyester Textile
- Side Wall: PVC Walls,glass Wall,ABS Wall,sandwich Panel Wall,etc.
- Eave Connection: Hot-dip Galvanized Twin Plate;expansion Bolts To Fix Tent
- Ground Situation: Grassland,earth Land,asphalt Ground,cement Ground

Product Description

Manufacturer New Designs Outdoor Custom Premium Arcum Tent For Wedding, Arch Ceremony Party Event Etc

Product Specification:

Frame	4 channels, hard pressed extruded aluminium alloy 6061/T6. (Surface anodized finish. Anti rust.)
Roof Cover	Opaque(or transparent), water proof, 850g/m. Flame retardant.PVC-coated Polyester.
Side Wall	1) 650g/m PVC-coated Polyester 2) glass wall 3) ABS wall 4) Sandwich wall
Wind Resistance	80~140km/h
Snow Load	25kg/sqm
Fixing Solution	Ground anchor, expandable bolt, weight plate, etc.
Service Life	More than 15 years
Applicable temperature range	-30 degree Celsius ~ +70 degree Celsius
Ground Situation	Grassland,earth land,asphalt,cement ground,mарble,etc
Connectors	Hot-dip galvanized twin plate;expansion bolts to fix tent

Several key principles:

Arcum Design: The tent's distinctive Arcum design features curved or arched roofs, creating a unique and visually appealing structure. The curved roof not only enhances the tent's aesthetics but also serves functional purposes. It allows for efficient rainwater runoff and snow load distribution, ensuring structural integrity and preventing water accumulation on the roof.

Structural Stability: Outdoor Large Custom Arcum Tents are engineered with structural stability in mind. High-quality materials, such as sturdy aluminum or steel frames, provide the tent with strength and durability to withstand adverse weather conditions, including wind, rain, and snow. Additionally, the tensioned fabric cover ensures uniform load distribution across the frame, enhancing stability.

Modular Construction: These tents feature a modular construction that allows for easy assembly, disassembly, and customization. Modular components, such as frame sections and fabric panels, can be quickly installed and dismantled, making the tent suitable for temporary or semi-permanent installations. The modular design also enables flexibility in size and configuration, accommodating various event requirements.

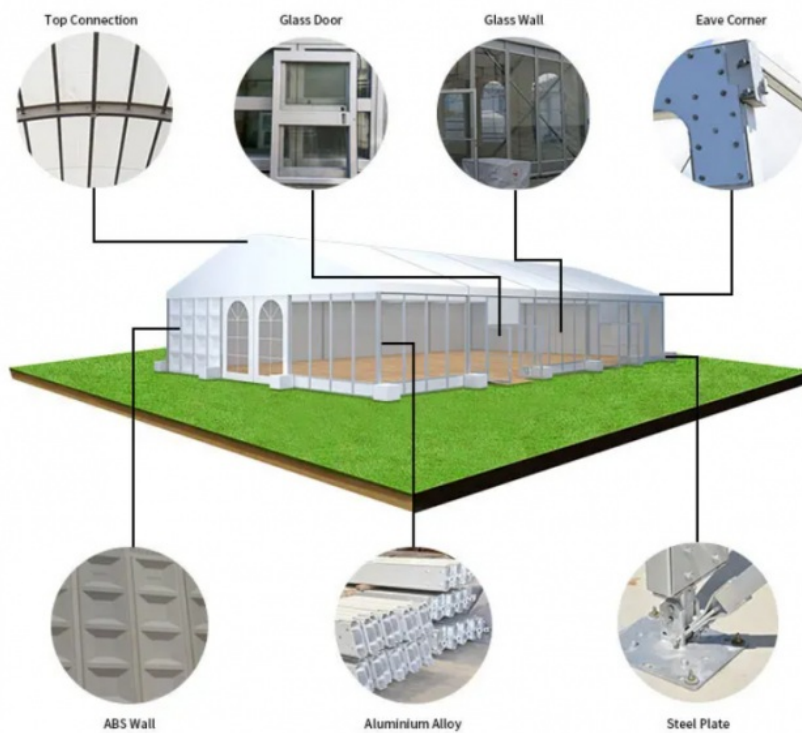

Versatility: Outdoor Large Custom Arcum Tents are versatile structures suitable for a wide range of outdoor events and applications. Whether used for weddings, corporate functions, trade shows, festivals, or concerts, these tents provide a flexible and customizable event space. They can be tailored to accommodate different seating arrangements, stages, lighting setups, and branding requirements.

Customization: Customization options play a crucial role in the design and functionality of Outdoor Large Custom Arcum Tents. Organizers can personalize the tent's appearance and features to match the theme, branding, or specific requirements of the event. Customization options may include sidewall configurations, flooring solutions, lighting systems, HVAC units, and branding elements such as logos or graphics.

Safety Considerations: Safety is paramount in the design and construction of Outdoor Large Custom Arcum Tents. Manufacturers adhere to strict safety standards and regulations to ensure the tents meet or exceed industry requirements. Engineering calculations, wind load analyses, and fire-resistant materials are incorporated to enhance structural integrity and safety.

Portability and Installation: Despite their large size, Outdoor Large Custom Arcum Tents are designed to be portable and easy to transport between different event locations. They can be installed on various surfaces with minimal site preparation, offering versatility in deployment. Additionally, efficient installation processes reduce downtime and labor costs, making the tents practical for temporary events.

Details:

FQA:

1.Q: Is that factory price?

Yes. We assure you all prices are based on factory.

2.Q: Does your tent be able to installed repeatedly? What is the life span?

Our tents can be assembled and dismantled easily and repeatedly with small transportation size. The lifespan of aluminium framework can reach 15-20 years, and 5-8 years for PVC fabrics depending on different conditions of usage.

3. Q: What documents are available?

A full range documents including structural drawings, packing list, installation manual and relative certificates can be provided. Moreover, customs declaration is provided. We provide one-stop service for you.

4.Q: Can you print our logos on tent?

A: Yes. Customized logos can be print on the tent fabric according to your requirements.
