Product Description

3X3 5X5 6X6 Steel Aluminum White Pvc Pagoda Marquee Tent Forparty, Event, Exhibition, Wedding, Sports Etc

Product Description:

item	value
Place of Origin	China
	Guangdong
Cover Material	650g/sqm Double PVC Coated Textile
Wind Resistance	100km/h
Frame Material	White Coated Steel Tubes
Service Life	More than 15 years
Fixing Solutions	Ground Anchor, Expansion Bolt, Weight Plate, etc.
Applications	Party, Event, Exhibition, Wedding, Gamping, etc.
Ground Situations	Grassland, Earth Land, Asphalt, Cement Ground, etc.
Application	Party
Usage	Advertising Display
Color	White

Features:

High-Quality Materials: Aluminum alloy pagoda tents are constructed using high-quality materials, including aluminum alloy frames and PVC-coated polyester fabrics. These materials are lightweight yet robust, offering excellent strength, durability, and resistance to corrosion, rust, and UV radiation.

Stylish Design: These tents feature a distinctive pyramid-shaped roof with sloping edges and a pointed peak, creating an elegant and eye-catching appearance. The sleek and modern design adds a touch of sophistication to any event or venue, making it a popular choice for weddings, parties, and corporate functions.

Versatile Sizes: Aluminum alloy pagoda tents are available in various sizes to accommodate different event requirements and guest capacities. They can range from small sizes suitable for intimate gatherings to larger sizes capable of hosting hundreds of guests. This versatility allows for flexibility in event planning and space utilization.

Quick and Easy Installation: These tents are designed for quick and easy installation without the need for specialized tools or equipment. The aluminum alloy frame features a modular design with pre-drilled holes and connectors, allowing for simple assembly and disassembly. This makes it convenient to set up and take down the tent as needed, reducing labor costs and time.

Weather Resistance: Aluminum alloy pagoda tents are engineered to withstand various weather conditions, including rain, wind, and sun exposure. The PVC-coated polyester fabric used for the tent canopy is waterproof, UV-resistant, and flame-retardant, providing protection from the elements and ensuring a safe and comfortable environment for guests.

Customization Options: These tents offer customization options to meet specific event requirements and preferences. Features such as sidewall configurations, window styles, door options, flooring choices, and branding opportunities allow for personalization and branding to enhance the overall aesthetic and functionality of the tent.

Stability and Safety: The aluminum alloy frame provides stability and structural integrity to the tent, ensuring it can withstand wind loads and other external forces. Additionally, the tent is engineered to meet industry safety standards and regulations, including requirements for wind resistance, fire safety, and structural stability, ensuring the safety of occupants.

Portability and Transportability: Aluminum alloy pagoda tents are lightweight and portable, making them easy to transport to different locations for events and functions. The modular design allows for compact packaging and storage, minimizing storage space requirements and transportation costs.

Installation Method

Installation environment	Installation materials	Installation diagram
If the ground is the loose ground such as the sand and lawn, It can use steel nail to fix.	 <p>Steel nail</p>	 <p>Bearing column Steel nail Base support</p>
If the ground can be damaged such as cement floor or tarmac floor, It can be use the expansion screw to fix.	 <p>Expansion screw</p>	 <p>Bearing column Expansion screw Base support</p>
If the ground can't damaged such as marble and tile, It must use the weight plate.	 <p>Weight Weight plate</p>	 <p>Bearing column Weight Base support</p>

FQA :

1. who are we?

We are factory,based in Guangdong, China.

2. how can we guarantee quality?

Always a pre-production sample before mass production;

Always final Inspection before shipment;

3.what can you buy from us?

Exhibition Equipment and Accessories,Tent

4. why should you buy from us not from other suppliers?

A complete industrial chain, from aluminum extrusion molding and processing, can be customized style and size, one-stop solution to the awning room, faster delivery, complete after-sales

5. what services can we provide?

Accepted Delivery Terms: FOB,CFR,CIF,EXW,Express Delivery ;

Accepted Payment Currency:USD;

Accepted Payment Type: T/T,L/C,Credit Card,PayPal,Western Union,Cash;

Language Spoken:English,Chinese

6. How can you make sure we will receive the product with high quality?

In the processing flow, we have a series of detection machine to control the quality. Before loading, our QC will inspect each shipment and all raw material is according to foodstuff requirement.

7:Can the customer return the goods if they don't like it?

Customized products are not support returned

8:How to calculate the freight?

The freight of each area is different, please consult customer service for details. thank you
