The Party Pagoda Tent is a unique set of high-pointed tents, which are perfect for outdoor events and can even serve as the perfect venue for an outdoor wedding party. The pagoda tent comes in ranging from 3m to 12m in the square frames. The frames are made from high pressed aluminum and the roof is made from 100% PVC fabric. Each tent can be upgraded with a range of accessories designed to improve its style and functionality. Upgrades include clear walls, windowed walls, customized shape walls, glass walls, doors, solid flooring systems, and decorated linings.

Advantages of pagoda tents:

Stylish Design: Pagoda tents have a distinctive and elegant appearance with a pyramid-shaped roof and sloping edges. This stylish design adds sophistication to any event and creates a visually appealing focal point.

Versatile Sizes: Pagoda tents come in various sizes to accommodate different event requirements and guest capacities. Whether you're hosting an intimate gathering or a large-scale event, there's a pagoda tent size suitable for your needs.

Quick Assembly: These tents are designed for easy and quick assembly, making them convenient for event organizers. The modular design

and pre-fabricated components allow for simple installation without the need for specialized tools or equipment.

Weather Resistance: Pagoda tents are engineered to withstand various weather conditions, including rain, wind, and sun exposure. The high-quality materials used in their construction, such as aluminum alloy frames and PVC-coated polyester fabric, provide durability and protection from the elements.

Customization Options: Pagoda tents offer customization options to meet specific event requirements and preferences. From sidewall configurations to window styles and door options, you can personalize the tent to suit your needs. Additionally, branding opportunities allow for customization with logos and graphics.

Portability: Despite their size, pagoda tents are lightweight and portable, making them easy to transport to different locations. The modular design allows for compact packaging and storage, reducing transportation costs and logistical challenges.

Versatility: Pagoda tents are versatile structures suitable for a wide range of events, including weddings, parties, corporate functions, festivals, trade shows, and more. They can be used as dining areas, lounges, exhibition spaces, or ceremony venues, providing flexibility in event planning and space utilization.

Safety: Pagoda tents are engineered to meet industry safety standards and regulations, ensuring the safety of event attendees. The sturdy construction and stability of the tent frame provide a secure environment, even in challenging weather conditions.

FQA :

Q: Can you print our logos on tent?

* Yes. Customized logos can be print on the tent fabric according to your requirements.

Q: Is that factory price?

* Yes. We assure you all prices are based on factory.

Q: Does your tent be able to install repeatedly?

* Our tents can be assembled and dismantled and repeatedly with small transportation size. The lifespan of aluminium framework can reach 15-20 years, and 5-8 years for PVC fabrics depending on different conditions of usage.

Q: What documents are available?

* A full range documents including structural drawings, packing list, installation manual and relative certificates can be provided. Moreover, customs declaration is provided. We provide one-stop service for you.

Q: What size tent is necessary for your special event?

* A person must first determine tent usage. If a tent is being used for dining purposes and round tables are being used allow 10-12 square feet per person. If banquet style tables are being used allow 8-10 square feet per person. If the purpose is for cocktail service allow 5 to 6 square feet per person. Contact us for all your specific questions and more information on tent types.

Q: Is your tent strong and stable enough? How about the wind loading?

* Yes. The main frameworks (upright support and roof beam) are manufactured with high impact extruded anodized aluminum (6061/T6) so our tent structure is safe and strong and can resist wind up to 100 km/hr after setting up correctly.

Q: How long is the warranty period?

* Guarantee one year. During the warranty period, we shall repair or replace the damaged part accordingly because of any damage due to quality problem.
