### Fabric cover double PVC-coated polyester fabric

### Packaging&Shipping

- (1)Weighted Plate consolidation; sand and concrete, such heavy things to be placed into the plate. ( This method always be suitable for the indestructible ground.)
- (2)Permanent Solution; this method is adopted for long term appliance. The consolidation system is casting into the ground. It is very stable.
- (3)Expandable Screw; for the ground, which maybe set the screw into the hard ground, like concrete ground.
- (4)Anchor fix way, this is a method for the soft ground, like grass and muddy ground.

### FQA :

#### 1)Q: Are you a factory or trading company?

A: We are a professional tent factory. So we can offer you a competitive price and a fast delivery time, can also control the quality well and supply constantly to ensure the quantity.

#### 2)Q: What is the life span of your tents?

A: Life span of the aluminium is 15-20 years, PVC fabric is 5-6 years. Good discount will be given you to get a new fabric from us after 5-6 years.

#### 3)Q: How to assemble your tents?

A: We will provide the manual and video for you to study. If you need, we can send a technician to help you in your country.

**4)Q: How to choose the size of the tent?**

A: The size depends on how many people you want to stand, sit or have dinner in this tent. And the size also depends on the land space you will put up this tent. Normally, we advise 1-1.5sq.m/person.
