3, set structure firmness, the whole frame is the 5 MMs thick angle steel to constitute, structure nicety, can fold, easy to deposit, fold the bottom of the backstage to have convenient four feet round the customer to push.

Here are some common uses:

Concerts and Music Performances: Adjustable stage platforms are frequently used for concerts and music performances. They provide a sturdy and customizable surface for performers to showcase their talents. The height of the stage can be adjusted to ensure optimal visibility for the audience.

Theatrical Productions: In theater productions, adjustable stage platforms allow directors and set designers to create dynamic and versatile stage layouts. They can be configured to accommodate different scenes and set designs, enhancing the overall production value.

Presentations and Speeches: Adjustable stage platforms are often used for presentations, speeches, and public speaking events. They provide a raised platform for speakers, presenters, and panelists, ensuring that they are easily seen and heard by the audience.

Dance Performances: Dance performances often require a sturdy and level surface for dancers to perform safely. Adjustable stage platforms can be customized to the desired height and configuration, providing dancers with an ideal performance space.

Special Events and Galas: From award ceremonies to fundraising galas, adjustable stage platforms are used to create a focal point for special events. They can be customized with branding elements, lighting, and other features to enhance the overall ambiance and atmosphere of the event.

Trade Shows and Exhibitions: In trade shows and exhibitions, adjustable stage platforms can be used as presentation stages or demonstration areas. They provide exhibitors with a dedicated space to showcase their products or services to attendees.

Outdoor Events: Adjustable stage platforms are also suitable for outdoor events such as festivals, fairs, and community gatherings. They can be set up in parks, open fields, or other outdoor venues, providing a stable surface for performances and presentations.

Educational Institutions: Schools, colleges, and universities often use adjustable stage platforms for various purposes, including school assemblies, theatrical productions, graduation ceremonies, and academic presentations.
