

Custom Led Floor Tempered Glass Magnetic Light Wedding Party Pixel Led Dance Stage Truss

Our Product Introduction

Basic Information

- Place of Origin: Guangdong
- Brand Name: Tendars
- Certification: ISO9001, SGS, Coc, CE
- Model Number: Truss Frame
- Minimum Order Quantity: 25 square meters
- Price: Reconsideration
- Packaging Details: 1, The aluminium frame structure packed into the bubble film 2, the pvc fabric roof cover and sidewalls are packed into the PVC fabric carry bag; 3, Hardware packed into the box.
- Delivery Time: 18days or To be negotiated
- Payment Terms: L/C, T/T, Western Union, MoneyGram
- Supply Ability: 50000 Square Meters per Month

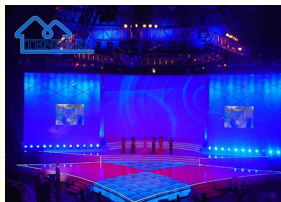

Product Specification

- Product Name: Led Dance Stage Truss
- Place Of Origin: Guangdong, China
- Color Rendering Index(Ra): 90
- Emitting Color: RGB
- Function: Show For Events
- Working Time (hours): 50000
- Product Weight (kg) : 12
- Input Voltage(V): AC100-240V/50-60HZ

Product Description

Custom Led Floor Tempered Glass Magnetic Light Wedding Party Pixel Led Dance Stage Truss

Product Description:

| | |
|-------------------|--|
| Voltage: | AC100-240V/50-60HZ |
| Light source: | SMD5050 RGB 3IN1 |
| Surface Material: | Tempered Glass |
| Control Method: | Ipad, remote, computer and dmx |
| Advantages: | Wireless magnet connection. Fast setup-one second, one panel. |
| Effects: | Pattern effects + Type words + Starlit effects + Solid colors changing |
| Loading Capacity: | One panel can support 500-600kgs. Cars can drive on it. |
| Size: | 50x50x7cm |
| Weight: | 12kg |

3D Effects Wireless Led Dance Floor:

| Product Name | Specification |
|--------------------|--|
| 3D LED Dance Floor | Control mode DMX512 controller,SD controller(with DMX,sound control,audio control,remote control),PC controller,without controller |
| | Input signal DMX512 |
| | Dimension(mm) L600*W600*H70mm |
| | Light source RGB 3 IN 1 |
| | Max power 15W |
| | Input voltage DC27V |
| | Net weight 14.5KG |
| | Brightness high brightness |
| | Surface material tempered glass |
| | Housng material metal |
| | Bearing weight 300KG/m2 |
| | Protection level IP55 |
| | Beam angle 160° |
| | Working tempperature -20~ +45°C |
| | Life span ≥50,000 h |
| | Power supply built-out |

Product Features:

- 1.Patented products, exclusive produced.
- 2.Reasonable price, cost-effective, good effect.
- 3.Adopted the advanced capacitance technology, high sensitivity, and low fault rate.
- 4.Work with TTL, DMX, & MADRIX, simple use.
- 5.Control by SD or PC controller, sound, audio, dimmer, speed, easy learn and use.
- 6.Black temper glass, high ABS base, super thin design, fancy appearance.
- 7.Our dance floor provide you 96 kinds of effect.
- 8.Easy installation, fast and simple, widely used in all kinds of places.

Application:

Our LED Dance Floor popular for wedding, party, club, KTV, T stage,concert, shopping corridor,car show,production conference, outdoor plaza, etc.

The advantages of LED dance stage trusses include:

Enhanced Visual Impact: LED lights integrated into the truss system add dynamic and colorful lighting effects, enhancing the overall visual appeal of stage performances, concerts, and events.

Versatility: LED dance stage trusses are versatile and can be customized to create various lighting patterns, effects, and color combinations, allowing for creative expression and mood enhancement.

Energy Efficiency: LED lights are energy-efficient and consume less power compared to traditional lighting fixtures, resulting in lower energy costs and reduced environmental impact.

Durability: LED dance stage trusses are durable and built to withstand the rigors of live performances and events. They are constructed using high-quality materials, ensuring long-lasting performance and reliability.

Flexibility: LED dance stage trusses offer flexibility in design and configuration, allowing for easy installation and adjustment to suit different stage layouts and production requirements.

Remote Control and Programming: Many LED dance stage trusses come with remote control capabilities and programmable lighting effects, giving users the ability to adjust colors, brightness, and effects on the fly, adding to the dynamic nature of live performances.

Safety: LED lights generate less heat compared to traditional lighting sources, reducing the risk of burns and fire hazards. Additionally, LED dance stage trusses are designed with safety features such as reinforced structures and secure mounting systems to ensure stability and prevent accidents.

Cost-Effective: While the initial investment may be higher than traditional lighting setups, LED dance stage trusses offer long-term cost savings due to their energy efficiency, durability, and low maintenance requirements.

If you want to know more,you can ask us the following questions:

- What is an LED dance stage truss?
- How does an LED dance stage truss enhance stage performances?
- What are the main features of LED dance stage trusses?
- How are LED lights integrated into the truss system?
- What types of LED lights are used in dance stage trusses?
- Can LED dance stage trusses be customized in terms of size and shape?
- What is the weight capacity of LED dance stage trusses?
- Are LED dance stage trusses suitable for indoor and outdoor use?
- How are LED dance stage trusses set up and controlled?
- What are the power requirements for LED dance stage trusses?
- Are there any safety considerations when using LED dance stage trusses?
- Can LED dance stage trusses be programmed to create different lighting effects and patterns?
- What is the lifespan of LED lights in dance stage trusses?
- Are LED dance stage trusses compatible with other stage equipment and accessories?
- Can LED dance stage trusses be rented or purchased?
- What is the cost range for LED dance stage trusses?
- Do LED dance stage trusses require regular maintenance?
- Are there any specific guidelines for transporting LED dance stage trusses?
- What are some creative ways to use LED dance stage trusses in events?
- Where can I find technical support or assistance for LED dance stage trusses?
