Product details:

Features:

Lightweight Construction: Aluminum truss is lightweight, making it easy to transport, set up, and dismantle. Despite its lightweight nature, it offers excellent strength and durability.

Modular Design: Truss systems typically feature a modular design, allowing for easy assembly and customization to create various configurations and sizes to suit different event requirements.

Spigot and Bolt Connection: The spigot and bolt connection system provides a secure and stable connection between truss sections, ensuring structural integrity and safety. This connection method also allows for quick assembly and disassembly without the need for specialized tools.

Versatility: Aluminum truss systems are highly versatile and can be used for a wide range of applications, including concerts, exhibitions, trade shows, corporate events, theatrical productions, and more.

Compatibility: Spigot bolt truss systems are often compatible with a variety of accessories and components, such as corner blocks, base plates, couplers, junctions, and corners, allowing for endless configuration possibilities.

Durability: Aluminum truss is corrosion-resistant and weather-resistant, making it suitable for both indoor and outdoor use. It can withstand harsh environmental conditions and heavy loads without compromising its structural integrity.

Sleek Appearance: Aluminum truss systems have a sleek and modern appearance, enhancing the overall aesthetic of the event or venue. They can be customized with different finishes, colors, and lighting effects to create stunning visual displays.

Safety: Aluminum truss systems are designed and engineered to meet stringent safety standards and regulations. They undergo rigorous testing to ensure they can safely support the intended load and withstand various stress factors.

Ease of Transport and Storage: Aluminum truss is compact and lightweight, making it easy to transport and store when not in use. Many truss systems are designed to be stackable and nestable, minimizing storage space requirements.

Customization Options: Aluminum truss systems can be customized to meet specific event requirements, including size, shape, load capacity, and finish. Custom branding and logo integration options are also available for promotional purposes.

Our Services
