25m	4m	8m	112*203	5m
30m	4m	8.8m	113*259	5m
40m	4m	10.5m	120*300	5m

Details:

The materials used in heavy-duty outdoor event marquees typically include:

Frame: The frame is often made of durable materials such as aluminum or steel. Aluminum frames are lightweight, corrosion-resistant, and easy to assemble, making them popular for portable event marquees. Steel frames provide added strength and stability, ideal for larger or more permanent structures.

Canopy Fabric: The canopy fabric is typically made of high-quality, weather-resistant materials such as PVC-coated polyester or polyethylene. These materials are waterproof, UV-resistant, and durable, providing protection from the elements and ensuring long-lasting performance.

Sidewalls: Sidewalls are optional but can be included to enclose the marquee and provide additional protection and privacy. They are typically made of the same materials as the canopy fabric and may feature windows or zippered openings for ventilation and accessibility.

Flooring: Flooring options for outdoor event marquees vary and can include temporary solutions like interlocking plastic tiles, portable roll-out flooring, or even customized wooden or carpeted flooring for more upscale events.

Anchoring System: To secure the marquee in place, heavy-duty stakes, pegs, or weights are often used to anchor the frame to the ground. These anchoring systems ensure stability and safety, especially in windy conditions.

Insulation (for insulated tents): If the tent is designed to provide insulation, materials such as heavy-duty canvas with insulating layers may be used. These tents are suitable for use in colder climates or during winter months, providing warmth and comfort to event attendees.

FAQ :

1. Are you tent factory?

Yes, we are professional tent manufacturer in Guangzhou of China. We assure you our prices are based on factory.

2. What is the MOQ of the tent?

One Set.

3. What size tent and what types do i need?

Tent size depends on the number of people to accommodate or the area you want to cover. In our factory, your choice can be 3 meter to 50 meter on width. For tent types, contact us with detailed requirements. We will send you our professional solution.

4. What is the production time for standard tent?

25-30days after deposit confirmed.

5. What's the lifespan of your clear span structure tent?

In the reasonable using, the lifespan of the aluminum alloy can last over 10 years and the PVC cover is more than 7 years.

6. Can your tent be relocated?

All our tent structures is designed into relocatable construction. For the seasonal and regional reason, you can dismantle, store or remove the tent to other location.

7. Can I extend the tent size or replace the related accessories in the future?

Sure. All of our tent structures and accessories are modular type. You can extend the tent length by adding some extra parts.
