Applications:

Events and Celebrations: Outdoor curve tents are commonly used for hosting various events and celebrations such as weddings, receptions, birthday parties, anniversaries, graduations, and religious ceremonies. The spacious interior and elegant design provide an ideal setting for gatherings of all sizes.

Corporate Events: These tents are often used for corporate events such as product launches, conferences, seminars, workshops, trade shows, exhibitions, and team-building activities. They offer a professional and stylish venue that can be customized to reflect the branding and theme of

the event.

Festivals and Fairs: Outdoor curve tents are popular at festivals, fairs, carnivals, and outdoor markets. They provide shelter for vendors, food stalls, merchandise booths, and entertainment stages. The curved roof design adds visual interest and helps attract visitors to the event.

Sports and Recreation: These tents are used for sporting events, tournaments, and recreational activities such as outdoor yoga classes, fitness boot camps, and adventure camps. They offer protection from the elements while allowing participants to enjoy the outdoor surroundings.

Hospitality and Catering: Outdoor curve tents are commonly used by hotels, resorts, restaurants, and catering companies to create temporary dining areas, cocktail lounges, bar setups, and hospitality suites for special events. They provide a comfortable and inviting space for guests to socialize and enjoy food and beverages.

FQA:

1.Can you print our logos on the tent?

Yes. Customized logos can be printed on the tent fabric according to your requirements.

2. Does your tent be able to install repeatedly?

Our tents can be assembled and dismantled and repeatedly with small transportation distance. The lifespan of aluminum framework can reach 15-20years, and 5-8 years for PVC fabrics depending on different conditions of usage.

3. Is that factory price?

Yes. We assure you all prices are factory price.

4. Is your tent strong and stable enough ? How about the wind loading ?

Yes, It is can resist wind up to 100 km/hr, if the wind or snow is very very heavy, please tell us and we will strengthen the tent to keep you safe!

5.Has your tent product been certified?

Yes. Our tent product has passed the engineering tests and gained the America . Besides, the PVC fabric used for roof covers and sidewalls has passed the fire tests and gained the flame retardant certificates issued .
