

Outdoor Professional Manufacturer Customized Aluminum Truss For Indoor/Outdoors Events

Our Product Introduction

Basic Information

- Place of Origin: Guangdong
- Brand Name: Tendars
- Certification: ISO9001, SGS, Coc, CE
- Model Number: Truss Frame
- Minimum Order Quantity: 25 square meters
- Price: Reconsideration
- Packaging Details: 1, The aluminium frame structure packed into the bubble film 2, the pvc fabric roof cover and sidewalls are packed into the PVC fabric carry bag; 3, Hardware packed into the box.
- Delivery Time: 18days or To be negotiated
- Payment Terms: L/C, T/T, Western Union, MoneyGram
- Supply Ability: 50000 Square Meters per Month

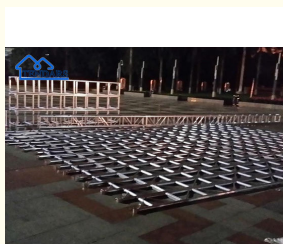

Product Specification

- Product Name: Customized Aluminum Truss
- Place Of Origin: Guangdong, China
- Material: Aluminium Alloy 6061-T6 / 6082-T6
- Main Tube: Dio 30mm X 2mm
- Vice Tube & Diagonal Cross: Dio 16mm X 2mm
- Standard Size: 200mm X 200mm X 1m
- Connection Mode: Bolt & Nut
- Usage: Indoor/Outdoors Events(Show,performances,ceremony,etc)

Product Description

Outdoor Professional Manufacturer Customized Aluminum Truss For Indoor/Outdoors Events

Product Description:

| | |
|-----------------------------|--|
| Material: | Aluminium Alloy 6061-T6 / 6082-T6 |
| Main Tube: | φ30mm x 2mm |
| Vice Tube & Diagonal Cross: | φ16mm x 2mm |
| Standard Size: | 200mm x 200mm x 1m |
| Connection Mode: | Bolt & Nut |
| Usage: | Indoor/Outdoors events(Show,performances,ceremony,etc) |

Details:

Features:

Customization Options: Custom aluminum trusses can be designed and fabricated to meet the exact specifications and needs of the project. This includes the dimensions, shape, configuration, and load-bearing capacity of the truss system. Customization options allow for versatility in usage and ensure compatibility with other equipment and structures.

Material Quality: Aluminum trusses are typically constructed from high-quality, lightweight aluminum alloy materials, which offer a combination of strength, durability, and corrosion resistance. The materials used in custom trusses are carefully selected to withstand the rigors of various environments and applications.

Strength and Stability: Custom aluminum trusses are engineered to provide exceptional strength and stability, even when supporting heavy loads or spanning large distances. Advanced structural analysis and design techniques ensure that the truss system can withstand dynamic loads, such as lighting fixtures, audio equipment, and banners, without sagging or deformation.

Versatility: Custom aluminum trusses offer versatility in terms of their configuration and setup. They can be assembled in different configurations, such as box truss, triangular truss, or circular truss, to accommodate diverse applications and design requirements. Additionally, custom trusses can be adapted to fit specific venue layouts and space constraints.

Ease of Assembly: Custom aluminum trusses are designed for easy assembly and installation, allowing for quick setup and teardown times. Precision machining and fabrication techniques ensure that truss components fit together seamlessly, minimizing assembly time and labor costs. Modular design features, such as bolted connections and snap-lock mechanisms, facilitate rapid assembly and disassembly without the need for specialized tools.

FQA:

Q1. Can I have a sample order for product?

A: Yes, we welcome sample order to test and check quality. Mixed samples are acceptable.

Q2. What about the lead time?

A: Sample needs 2-3 days, mass production time needs 1-2 weeks for order quantity more than.

Q3. Do you have any MOQ limit for product order?

A: Low MOQ, 1pc for sample checking is available.

Q4. How to proceed an order for product?

A: Firstly, let us know your requirements or application. Secondly, we quote according to your requirements or our suggestions. Thirdly, customer confirms the samples and places deposit for formal order. Finally We will arrange the production.

Q5. Is it OK to print my logo on product?

A: Yes. Please inform us formally before our production and confirm the design firstly based on our sample.

Q6. Do you offer guarantee for the products?

A: Yes, we offer 2 years warranty to our products.

Q7. How to deal with the faulty?

A: Firstly, Our products are produced in strict quality control system and the defective rate will be less than 0.2%. Secondly, during the guarantee period, we will repair them and resend them to you or we can discuss the solution. Including re-call according to real situation.
