

Ladder, Triangle, Square Aluminum Lighting Truss, Aluminum Stage Truss Outdoor Commercial Structure

Our Product Introduction

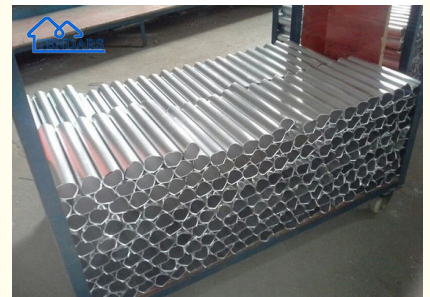

Basic Information

- Place of Origin: Guangdong
- Brand Name: Tendars
- Certification: ISO9001, SGS Coc, CE
- Model Number: Truss Frame
- Minimum Order Quantity: 25 square meters
- Price: Reconsideration
- Packaging Details: 1, The aluminium frame structure packed into the bubble film 2, the pvc fabric roof cover and sidewalls are packed into the PVC fabric carry bag; 3, Hardware packed into the box.
- Delivery Time: 18days or To be negotiated
- Payment Terms: L/C, T/T, Western Union, MoneyGram
- Supply Ability: 50000 Square Meters per Month

Product Specification

- Product Name: Aluminum Stage Truss For Sale
- Connection: Spigot, Bolt
- Place Of Origin: Guangdong, China
- Material: International Standard Aluminum Alloy 6082-T6
- Color: Silver, Black, Gold
- Length: 1m, 2m, 3m, 4m Or Customized
- Application: Entertainment Industry, event Production Companies
- Shape: Ladder, Triangle, Square
- Highlight: **aluminum stage truss outdoor commercial, triangle square aluminum lighting truss, aluminum truss stage structure**

Product Description

Factory Price Ladder, Triangle, Square Aluminum Lighting Truss, Aluminum Stage Truss For Sale

Product Description:

Material	Internation standard 6082-T6	Color	Silver or black or customized is available
Connections	Spigots or Screws	Shape	Ladder, Triangle, Square, Arch and Round Truss
Truss Length	Straight truss 0.5-4m, Arc and Round truss diameter 2-20m		
Truss Size	Light duty truss: 150*150mm, 200*200mm, 250*250mm		
	Medium duty truss: 290*290mm, 300*300mm, 390*390mm, 400*400mm		
	Heavy duty truss: 500*600mm, 520*760mm, 600*760mm, 600*1010mm		
Custom lengths and shapes in metric and imperial sizes are available on request.			

Accessories

top section, base, sleeve block, hinge tower, outrigger, hand winch, motor chain, connector, clamp.

What Are The Applications Of our Truss?

on sale aluminum lighting truss Tendars aluminum trusses are commonly used in a variety of different fields. Our products are easy to set up and give our customers great variety of possible installations. The chaoda trussing systems are commonly used for all kinds of applications such as truss lighting designs, exhibition booths, exhibit booths, trade show displays, booths for trade show, design booths, trade show banners, displays for trade show and so on.

Key principles:

Material Selection: Aluminum is chosen as the primary material for stage truss due to its excellent strength-to-weight ratio, corrosion resistance, and malleability. These properties allow aluminum truss to withstand heavy loads while remaining lightweight and easy to transport and assemble.

Truss Configuration: Aluminum stage truss consists of a series of interconnected truss segments, typically manufactured in triangular or rectangular configurations. These geometric shapes distribute loads efficiently and evenly across the structure, minimizing stress concentrations and ensuring structural integrity.

Connection Methods: Aluminum truss segments are connected using specialized connectors, bolts, or couplers. These connection methods allow for quick assembly and disassembly while providing secure attachment points to ensure stability during use.

Load-Bearing Capacity: Aluminum truss systems are designed to support various loads, including lighting fixtures, audio equipment, LED screens, and stage components. Load-bearing calculations take into account factors such as live loads (e.g., equipment, performers, audience), dead loads (e.g., truss structure, rigging), and dynamic forces (e.g., wind loads, vibrations).

Modularity and Versatility: Aluminum truss systems are modular, meaning they can be easily customized and reconfigured to meet specific event requirements. Different truss lengths, angles, and junctions allow for the creation of diverse stage designs, structures, and configurations tailored to different venues and event types.

Packaging

Export standard air bubble film or carton. Flight case or pallet available.

Shipping

By Air or by Sea for batch goods, for FCL; Airport/ Port receiving,
Customers specifying freight forwarders or negotiable shipping methods,
Delivery Time: 5-15 days for batch goods.

Payment Terms

Payment: T/T, Western Union, Trade Assurance, 30% deposits; 70% balance before delivery.
MOQ: 10m.
Warranty : 3 years.

FQA:

1. When can I get the price?

Our professional team could send you quotes within 24 hours while receiving your inquiry.

2. What is the delivery time ?

5--15 days for batch goods.Regular size trusses are in stock.Urgent order is also available!
