Advantages of Products

Wuxi Hengshang Metal Products Co., Ltd

Design for free

Regular Production Surveillance Safety Type Approved

TUV Certificate

Free installation test

Professional Welding

Physical factory

Win-win cooperation

4. Our Advantages

Aluminium material---durable and environmental friendly.

Convenience---light weight, easy to carry around, store, and transport; easy to install and disassemble.

High quality---strong loading capability, all our products are with 3 years guarantee.

Can be adjusted for uneven ground.

Unique design---possessing experienced designers with perfect craftsmanship to offer design for your special request.

Favorable price---with competitive price under the assurance of quality.

Quick delivery time---5-10 days in usual

Welcome my esteemed customers place order via trade assurance.

5. Application:

Stage truss can be applied in a host of applications. First and foremost, stage trusses allow lighting designers the freedom to hang LED or automatic luminaires, often referred to as movers on stage. The greatest function of a stage truss is to help bring performers and audience members closer together, thus creating a sense of interaction.

Generally speaking, stage trusses can be used in a variety of high-traffic areas such as stage theatres, concerts, performing arts, or trade shows, arenas, and stadiums where stage performances are required. In short, stage trusses can help to create a better performance on stage.

Application: We can design diverse shapes to hang acoustics, loudspeaker, video, lighting, etc. Widely used for wedding, exhibition, show, concert, celebrations, ceremony, conference, performance, meeting, party, activities and so on.

6. FQA:

Q1. What is your terms of packing?

A: Generally, we pack our goods in air bubble film or cartons. If you have legally registered patent, we can pack the goods in your branded boxes after getting your authorization letters.

Q2: Are you Factory?

A: Yes, we are factory.

Q3: Why do I need to know the use of truss and local climate?

A: To know the use of truss and local weather, I can provide you with advice better, and it is very useful for our designer's work.

Q4: Can I put my logo on the truss?

A: Sure, We accept all the customized service.
