

Event Stage Recyclable Portable Aluminum Stage Truss Platform , Lighting Led Screen Wall

Our Product Introduction

Basic Information

- Place of Origin: Guangdong
- Brand Name: Tendars
- Certification: ISO9001, SGS, Coc, CE
- Model Number: Truss Frame
- Minimum Order Quantity: 25 square meters
- Price: Reconsideration
- Packaging Details: 1, The aluminium frame structure packed into the bubble film 2, the pvc fabric roof cover and sidewalls are packed into the PVC fabric carry bag; 3, Hardware packed into the box.
- Delivery Time: 18days or To be negotiated
- Payment Terms: L/C, T/T, Western Union, MoneyGram
- Supply Ability: 50000 Square Meters per Month

Product Specification

- Product Name: Aluminum Stage Truss Platform
- Material: Aluminum Alloy /Plywood
- Application: Events
- Usage: Hanging LED Screen /LED Display Truss
- Stage Board Thickness: 18mm Plywood
- Feature: Adjustable Legs, Anti-rust, mobile, portable
- Loading Capacity: 750 Kgs/sqm
- Adjustable Height: Customized Height
- Highlight: **Recyclable Aluminum Stage Truss Platform, Aluminum Stage Truss Platform**

Product Description

Event Stage Recyclable Portable Aluminum Stage Truss Platform , Lighting Led Screen Wall

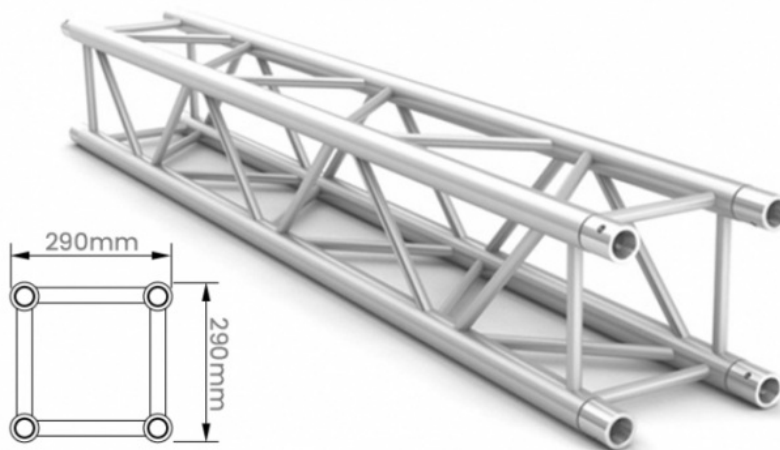

Product Description:

LED display truss is a versatile structure used for mounting and hanging LED video screens for various indoor and outdoor events, such as concerts, trade shows, conferences, and exhibitions. It is typically made of high-strength aluminum alloy and has lightweight properties, making it easy to transport and assemble.

LED display trusses come in different sizes and configurations, and they can be customized to fit specific requirements. The truss is designed to provide a sturdy framework for mounting the LED panels securely and safely, ensuring the viewers have an immersive and unforgettable experience. It is also designed to be modular, allowing for flexible configurations, easy assembly, and disassembly. LED display truss is an important element of the modern event industry, providing a dynamic visual presentation that is engaging and captivating.

Length	2 meters (6.56 ft)
Outer diameter tube	2 in (50 mm). Dimensions: 11.42*11.42 in (290 x 290 mm)
Diagonal bracing	0.75 in (20 mm). Centerpoint load: 4,568 lbs (2,072 kg).
Distributed load	6,093 lbs (2,764 kg)
Wall thickness	0.08 in (2 mm). Weight 26.45 lbs (12 kg)
Approvals	ISO9001, SGS, Coc, CE
