XDP030003	30	2.7	5	Unlimited	100km/h
XDP040003	40	2.7	5	Unlimited	100km/h

Installation steps

The whole frame is connected by the loose knot method of locking screws so it's easy to install and move
 There are slots on both sides of the aluminum alloy frame to facilitate the passage of strips on the pvc cover
 There are slide buckles on the side wall pvc cover, so we can pull it aside or take it down, there is a zipper in the middle of each side wall cover,

when it is closed, it can be used as wall, conversely, it will be used as door

FAQ :

Q1. Are you factory or trade company?

We are direct factory.

Q2. What is your Payment terms?

T/T is available.

Q3. Is your tent strong and stable enough,How about the wind loading?

Yes, Steel structure and cover wind resistance and load bearing is calculated by professional software and Experienced engineer team , will be more than we planned 50%.The wind load at least more than 80KM/H.

Q4. What's the material of the cover,does it can last long time?

The cover material is PVDF or PTFE.PVDF can last more than 15-20 years.PTFE can last more than 50 years.It have fabric inside,so it very strong ,not easy to be torn.

Q5. When will you ship the orders?

Once the design of tent is confirmed, we will arrange production plan, and inform you of the leadtime, generally it takes about 7-25 working days.

Q6. What is the total price include freight?

The total price is based on the design of the product and the requirements of the customer, all subject to the final calculation.
