	Features: Waterproof, flame retardant to DIN4102 B1, M2, CFM, UV resistant
Eave Connection	Hot-dip Galvanized twin steel plate
Wind Loading	100km/hour

Details:

Item	Width	Eave Height	Ridge Height	Bay Distance	First Floor Height	Main聽Profile
DDS	10m	6.75m	8.50m	5m	3.21m	300x120x5mm
DDS	15m	6.75m	9.34m	5m	3.21m	300x120x5mm
ADDS	20m	6.75m	8.90m	5m	3.21m	300x120x5mm
ADDS	25m	6.75m	9.84m	5m	3.21m	300x120x5mm
CSD	30m	8.00m	9.80m	5m	4m	300x120x5mm
CSD	40m	8.00m	10.0m	5m	4m	300x120x5mm

The length can be extended by 5m bay such as 15m, 20m, 30m, 40m... Customized size or shape is available.

Key features of Arcum tents:

Curved Roof Design: The defining characteristic of an Arcum tent is its curved or arched roof profile. This design not only creates a visually striking appearance but also offers practical benefits such as increased interior space and improved snow and rain shedding capabilities.

Clear Span Interior: Arcum tents typically have a clear span interior, meaning they have no internal support poles or columns. This provides unobstructed space within the tent, allowing for flexible layouts and maximizing usable area for events and activities.

High Ceiling Height: The curved roof design of Arcum tents often results in a high ceiling height at the center of the structure. This spacious vertical clearance creates a sense of openness and grandeur, making the tent suitable for accommodating large crowds, stage setups, and hanging decorations.

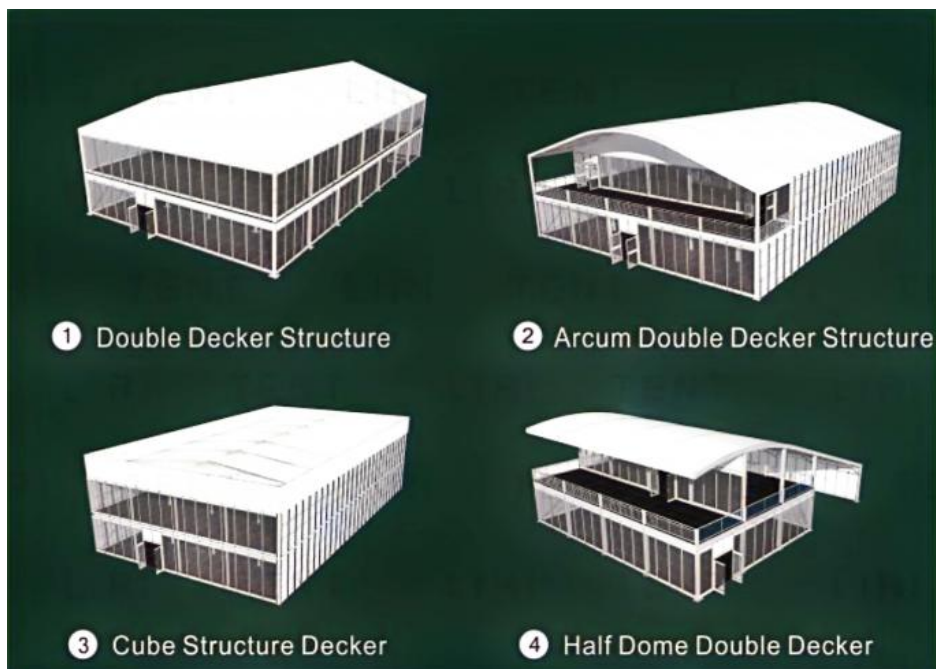

Modular Construction: Arcum tents are constructed using modular components such as aluminum or steel frames and PVC or polyester fabric covers. This modular construction allows for easy assembly, disassembly, and transportation, making Arcum tents suitable for temporary or semi-permanent installations.

Weather Resistance: Arcum tents are designed to withstand various weather conditions, including wind, rain, snow, and UV exposure. The curved roof profile and durable fabric covers help shed water and snow, while the sturdy frame provides stability in windy conditions.

Customization Options: Arcum tents can be customized to meet the specific requirements of different events and venues. This includes options for sidewalls, windows, doors, flooring, lighting, and branding, allowing organizers to create tailored solutions that enhance the functionality and aesthetics of the tent.

Versatility: Arcum tents are versatile structures suitable for a wide range of applications, including weddings, corporate events, trade shows, exhibitions, concerts, parties, and sports events. Their spacious interiors, elegant appearance, and customizable features make them popular choices for both indoor and outdoor venues.

Product type:

FQA:

Q: Can you print our logos on the tent?

Yes. Customized logos can be printed on the tent fabric according to your requirements.

Q: Is that factory price?

Yes. We assure you all prices are based on factory.

Q: Does your tent be able to installed repeatedly? What is the life span?

Our tents can be assembled and dismantled easily and repeatedly with small transportation size. The lifespan of aluminium framework can reach 15-20 years, and 5-8 years for PVC fabrics depending on different conditions of usage.

Q: What documents are available?

A full range documents including structural drawings, packing list, installation manual and relative certificates can be provided. Moreover, customs declaration is provided. We provide one-stop service for you.
