- 7) Wide range of applications; Widely used for outdoor party ,wedding ,celebration ,festival ,fashion show exhibition ,fair ,trade show ,business promotion ,product show ,car showrooms ,conference ,ceremony ,garden centres ,swimming pool cover ,cafe room ,temporary warehouse or workshop ,etc .

#### How to install an Aluminum Arcum Tent:

##### Site Preparation:

Choose a suitable location for the tent that is level, stable, and free from obstacles.  
Clear the area of debris, vegetation, and any other obstructions that may interfere with the installation process.  
Check for underground utilities and obtain any necessary permits or approvals from local authorities.

##### Frame Assembly:

Lay out the aluminum frame components according to the manufacturer's instructions.  
Begin by assembling the main support arches or beams, ensuring they are properly aligned and securely connected.  
Attach the horizontal beams, rafters, and other frame elements to form the skeleton of the tent structure.  
Use appropriate tools and equipment to tighten bolts, screws, or other fasteners to secure the frame components together.

##### Fabric Installation:

Unroll the tent fabric cover and lay it out flat on the ground next to the assembled frame.  
Attach the fabric cover to the frame by sliding it over the top of the structure and securing it in place using tensioning straps, ropes, or clips.  
Ensure that the fabric cover is evenly tensioned and stretched across the frame to minimize wrinkles and sagging.  
If the tent has sidewalls, install them along the perimeter of the structure and secure them to the frame using hooks, ties, or other fastening methods.

##### Anchoring and Stability:

Anchor the tent to the ground using stakes, anchors, or weights to ensure stability and prevent movement or tipping.  
Drive stakes or anchors into the ground at regular intervals along the perimeter of the tent, ensuring they are securely fastened to the frame.

Use ratchet straps, tensioning cables, or ballast weights to further secure the tent and minimize sway or movement in windy conditions.

**Interior Setup:**

Once the tent frame and fabric cover are installed and anchored, proceed with setting up interior amenities such as flooring, lighting, seating, tables, and decorations.

Coordinate with event organizers, vendors, and staff to ensure that all elements are properly positioned and arranged according to the event layout and requirements.

**FQA:**

**1)Q:Are you a factory or trading company?**

A:We are a professional tent factory. So we can offer you a competitive price and a fast delivery time, can also control the quality well and supply constantly to insure the quantity.

**2)Q:What is the life span of your tents?**

A:Life span of the aluminium is 15-20 years, PVC fabric is 5-6 years. Good discount will be given you to get a new fabric from us after 5-6 years.

**3)Q:How to assemble your tents?**

A:We will provide the manual and video for you to study. If you need, we can send a technician to help you in your country.

**4)Q:How to choose the size of tent?**

A:The size depends on how many people you want to stand, sit or have dinner in this tent. And the size also depends on the land space you will put up this tent. Normally, we advise 1-1.5sq.m/person.

**5)Q:What is the warranty and safety of your tents?**

A:Our tent is made by European standards and we own the CE/SGS quality management system certificate. Besides, we can design your tents with the emergency door and exit & panic lights to make sure the safety when have an emergency situation.
