Key features:

Transparent Walls: The most distinctive feature of glass wall tents is their transparent walls made of tempered glass panels. These walls offer unobstructed views of the surrounding landscape, allowing natural light to illuminate the interior space and creating a seamless connection between indoor and outdoor environments.

Panoramic Views: Glass wall tents provide panoramic views of the surrounding scenery, venue, or landscape, offering guests an immersive experience and enhancing the overall ambiance of the event. The transparent walls allow attendees to enjoy the beauty of their surroundings while remaining sheltered from the elements.

Aesthetic Appeal: Glass wall tents have a sleek and modern aesthetic that adds sophistication and elegance to any event. The transparent

walls create a visually striking structure that stands out and makes a memorable impression on guests.

Versatility: Despite their transparent design, glass wall tents offer versatility in terms of layout, configuration, and customization options. They can be adapted to accommodate various event types, themes, and requirements, making them suitable for weddings, corporate events, galas, parties, and more.

Weather Resistance: While offering transparency, glass wall tents are designed to provide protection from the elements. The tempered glass panels are durable and weather-resistant, providing insulation and shelter from wind, rain, sun, and cold temperatures.

Packaging:

1. Aluminum frame packed in membrane film
2. Hardware packed in solid carton box
3. Roof and sidewall in professional PVC carry bag

FQA:

Q: Could you help do our logos on the tent?

Yes. Customized logos can be print on the tent fabric according to your requirements.

Q: Can the tents be installed repeatedly?

Yes. Our tents can be assembled and dismantled and repeatedly.

Q: How long is the warranty period?

The lifespan of aluminum framework can reach 15 years, and about 5 years for PVC fabrics depending on different conditions of usage.

Q: Is that factory price?

Yes. We assure you all prices are factory price.

Q: Is your tent strong and stable enough ? How about the wind loading ?

Yes, It is can resist wind up to 100 km/hr, if the wind or snow is very very heavy, please tell us and we will strengthen the tent to keep you safe!
