Construction:

These tents feature a geodesic dome design, constructed with a network of interconnected struts or rods arranged in a geodesic pattern. The frame is typically made from high-strength materials such as galvanized steel or aluminum alloy, providing stability and durability. The tent cover is made from PVC-coated polyester or other heavy-duty fabric, offering weather resistance, UV protection, and insulation. This material is both durable and aesthetically pleasing, enhancing the overall ambiance of the glamping experience.

FQA:

Q:Why do I need to know the use of tents and local climate?

To know the use of tent and local weather, I can provide you with advice better,and it is very useful for our designer's work.
