PTS-10	10m	3m	2.6m	3m-4m	84*48*3mm
PTS-12	12m	5m	4m	3m-6m	122*68*3mm
PTS-15	15m	5m	4m	3m-7m	166*88*3mm

#### Frame Materials:

**Aluminum:** Aluminum is a popular choice for the frame structure of large wedding marquee tents due to its lightweight yet sturdy properties. Aluminum frames offer excellent structural integrity while being easy to assemble and transport. They are also resistant to rust and corrosion, making them suitable for outdoor use.

**Steel:** Steel frames provide exceptional strength and durability, making them suitable for large-scale tents or installations requiring extra stability. While steel frames are heavier than aluminum, they offer superior load-bearing capacity and are ideal for long-term or semi-permanent installations.

**Galvanized Steel:** Galvanized steel is steel that has been coated with a layer of zinc to protect against corrosion. Galvanized steel frames are highly durable and resistant to rust, making them suitable for outdoor applications where exposure to moisture is a concern. They offer excellent longevity and structural stability for large wedding marquee tents.

#### Cover Materials:

**PVC-Coated Polyester Fabric:** PVC-coated polyester fabric is a common choice for the cover material of large wedding marquee tents. This fabric is waterproof, UV-resistant, and flame-retardant, providing protection against rain, sun, and other weather elements. It is available in a variety of colors and finishes, allowing for customization to match the wedding theme or decor.

**Vinyl:** Vinyl is another popular option for tent covers due to its durability and weather resistance. Vinyl fabrics are typically coated with PVC or other protective layers to enhance strength and longevity. They offer excellent tear resistance and are easy to clean, making them suitable for outdoor use in various climates.

**Canvas:** Canvas is a traditional tent material known for its natural appearance and breathability. While less common in large wedding marquee tents, canvas covers offer a classic aesthetic and can provide a rustic or vintage charm to outdoor weddings. Canvas covers may require additional weatherproofing treatments to enhance water resistance and durability.

#### Additional Materials:

**Connectors and Fittings:** Connectors and fittings are essential components of large wedding marquee tents, connecting frame segments and securing the cover material in place. These components are typically made of high-strength metals such as aluminum or steel and are designed to withstand heavy loads and tension.

**Anchoring Systems:** Anchoring systems, such as stakes, anchors, and weights, are used to secure large wedding marquee tents to the ground and prevent movement or instability. These systems may vary depending on the tent's location and surface type, with options for soft ground, hard ground, or concrete surfaces.

#### Accessories

**Covers:** colourful cover, transparent cover, inflatable roof cover

**Windows:** dome or square clear PVC windows, mesh window, glass window for glass wall

**Wooden Flooring System:** VIP cassette flooring, simple cassette flooring

**Doors:** double-wing glass door, single-wing glass door, glass fire door, aluminium door, rolling shutter(automatic or manual)

**Wall:** soft PVC fabric wall, glass wall, ABS hard wall, sandwich panel wall, steel plate wall

**Fixing Methods:** ground anchors, weight plate, expandable bolts

**Rain Gutters:** inner roof beam rain gutter or rain gutter between two similar tents

**Other Optional Items:** table, chair, lighting, AC, carpet, installation tools etc.

**FAQ:**

**1. Are you a trading company or manufacturer?**

We are manufacturer, so we can give you competitive prices.

**2. What about your MOQ - minimum order quantity ?**

MOQ for different products are different, please check them with us before payment.

**3. Can you develop products with our drawing?**

Yes, please offer your drawing with technical requirements.

**4. Do you Accept OEM service?**

YES!

**5. What's your Delivery Time?**

Normally 20 working days, please confirm with us before order!

**6. What's the Payment Terms?**

50% deposit, balance to be paid before shipment.

**7. How you pack products?**

Aluminum frame packed in air bubble film, roof and sidewall in professional PVC carry bag, or under your requirements.
