Features:

Classic Elegance: White Tent Wedding Receptions exude timeless elegance with their clean and sophisticated aesthetic. The white tent canopy provides a neutral backdrop that complements various wedding themes and color schemes, allowing couples to incorporate their desired decor and personal touches.

Spacious Interior: White tent structures offer ample interior space, with high ceilings and unobstructed layouts, providing flexibility for seating arrangements, dance floors, and entertainment areas. Whether hosting an intimate gathering or a large-scale affair, couples have the freedom to design the tent's interior to suit their guest count and event vision.

Weather Protection: White tent structures provide protection from the elements, shielding guests from sun, rain, or wind exposure. The durable canopy material is typically weather-resistant, ensuring that the reception can proceed comfortably regardless of outdoor conditions.

Customization Options: Couples can customize their White Tent Wedding Receptions to reflect their style and preferences. From lighting and drapery to floral arrangements and table settings, the tent interior can be adorned with decorative elements that enhance the ambiance and create a romantic atmosphere.

Versatility: White Tent Wedding Receptions are versatile enough to accommodate various wedding-related activities, including ceremonies, cocktail hours, dinners, and dancing. The tent's open design allows for seamless transitions between different parts of the celebration, ensuring a smooth and memorable event flow.

FAQ :

Q: Can you print our logos on the tent?

Yes. Customized logos can be printed on the tent fabric according to your requirements.

Q: Does your tent be able to install repeatedly?

Our tents can be assembled and dismantled and repeatedly with small transportation distance. The lifespan of aluminum framework can reach 15-20 years, and 5-8 years for PVC fabrics depending on different conditions of usage.

Q: What documents are available?

A full range documents including structural drawings, packing list, installation manual and relative certificates can be provided. Customs declaration is provided. We provide one-stop service for you.

Q: Is your tent strong and stable enough? How about the wind loading?

Yes. The main frameworks (upright support and roof beam) are manufactured with high impact extruded anodized aluminum (6061/T6). So our tent structure is safe and strong and can resist wind speed up to 100 km/hr.
