Features:

Distinctive Appearance:

High Peak Frame Tents feature a unique peaked roof design that creates a visually striking appearance. The high peaks, combined with sweeping lines, give these tents an elegant and festive look suitable for weddings, parties, and upscale events.

Spacious Interior:

Despite their stylish exterior, High Peak Frame Tents offer spacious interiors with no center poles obstructing the space. This provides an unobstructed area for seating, dancing, dining, or other event activities, maximizing the usable space inside the tent.

Sturdy Frame Construction:

High Peak Frame Tents are supported by sturdy frame structures made of aluminum or steel. These frames provide stability and structural integrity, allowing the tent to withstand wind and other outdoor elements without the need for interior support poles.

Weather Resistance:

The canopy of a High Peak Frame Tent is typically made from durable and weather-resistant materials such as vinyl or polyester fabric. This provides protection against sun, rain, and wind, ensuring that guests remain comfortable regardless of the weather conditions.

Customizable Features:

High Peak Frame Tents can be customized with various features and accessories to suit the specific needs of the event. This includes options for sidewalls, windows, doors, flooring, lighting, heating, air conditioning, and decor elements, allowing hosts to create their desired ambiance.

Versatile Applications:

High Peak Frame Tents are suitable for a wide range of events and occasions, including weddings, parties, receptions, corporate functions,

trade shows, exhibitions, festivals, and more. Their elegant appearance and flexible design make them a popular choice for both formal and informal gatherings.

FQA:

Q: Can you print our logos on tent?

* Yes. Customized logos can be printed on the tent fabric according to your requirements.

Q: Is that factory price?

* Yes. We assure you all prices are based on factory.

Q: Does your tent be able to install repeatedly?

* Our tents can be assembled and dismantled and repeatedly with small transportation size. The lifespan of aluminium framework can reach 15-20 years, and 5-8 years for PVC fabrics depending on different conditions of usage.

Q: What documents are available?

* A full range of documents including structural drawings, packing list, installation manual and relative certificates can be provided. Moreover, customs declaration is provided. We provide one-stop service for you.

Q: What size tent is necessary for your special event?

* A person must first determine tent usage. If a tent is being used for dining purposes and round tables are being used, allow 10-12 square feet per person. If banquet style tables are being used, allow 8-10 square feet per person. If the purpose is for cocktail service, allow 5 to 6 square feet per person. Contact us for all your specific questions and more information on tent types.

Q: Is your tent strong and stable enough? How about the wind loading?

* Yes. The main frameworks (upright support and roof beam) are manufactured with high impact extruded anodized aluminum (6061/T6), so our tent structure is safe and strong and can resist wind up to 100 km/hr after setting up correctly.

Q: How long is the warranty period?

* Guarantee one year. During the warranty period, we shall repair or replace the damaged part accordingly because of any damage due to quality problem.
