Key features:

Classic Appearance: White canvas tents exude a timeless and classic aesthetic, reminiscent of traditional camping experiences. The crisp white color provides a clean and elegant look, suitable for a wide range of events and settings.

Durable Construction: These tents are typically made from durable and rugged materials such as cotton canvas or polyester canvas. The canvas fabric is known for its strength and durability, making it resistant to tears, abrasions, and harsh weather conditions.

Breathability: Canvas tents offer excellent breathability, allowing air to circulate freely within the tent. This helps regulate temperature and moisture levels inside the tent, creating a comfortable and pleasant environment for occupants.

Natural Insulation: Canvas fabric provides natural insulation, helping to maintain comfortable temperatures inside the tent. In colder weather, canvas tents retain heat more effectively than synthetic materials, keeping occupants warm and cozy.

Water Resistance: While canvas tents are not inherently waterproof, they can be treated with waterproofing agents to enhance their water resistance. With proper maintenance and treatment, canvas tents can effectively repel moisture and provide adequate protection against rain and wet weather conditions.

FQA:

1)Q:Are you a factory or trading company?

A:We are a professional tent factory.So we can offer you a competitive price and a fast delivery time,can also control the quality well and supply constantly to insure the quantity.

2)Q:What is the life span of your tents?

A:Life span of the aluminium is 15-20 years,PVC fabric is 5-6 years. Good discount will be given you to get a new fabric from us after 5-6 years.

3)Q:How to assemble your tents?

A:We will provide the manual and video for you to study.If you need,we can send a technician to help you in your country.

4)Q:How to choose the size of tent?

A:The size depends on how many people you want to stand,sit or have dinner in this tent.And the size also depends on the land space you will put up this tent.Normally,we advise 1-1.5sq.m/person.
