Key features of pagoda tents include:

Stylish peaked roof design resembling traditional pagodas
Sturdy frame construction made of aluminum or steel
Durable canopy material, often polyester or PVC-coated fabric, providing weather resistance
Spacious interior with no center poles, maximizing usable space
Customizable options such as sidewalls, windows, doors, flooring, lighting, and heating/cooling systems
Easy setup and dismantling, often with modular construction and collapsible frames for portability

FQA:

1. Are you a professional manufacturer?

Yes, we are a professional manufacturer of tents, guaranteeing that all products are ex-factory prices.

2. Can you print our trademarks?

Yes, custom logos can be printed on your product.

3. Can your product be installed repeatedly?

Yes, our tents can be installed and removed multiple times to facilitate your transportation.

4. What files are available?

Complete set of documents, structural drawings, packing lists, installation manuals and related certifications.

5. Can the size of the tent be customized?

Because the tents are used in different conditions, our products are custom-made and we produce sizes according to your requirements.

6. How is the quality of the product guaranteed?

Our products will be strictly tested by the quality inspection department before leaving the factory, and each product will be strictly controlled to ensure product quality. If there are parts that need to be replaced due to quality problems, we will send them to you for free(with in six months).
