

## Custom Outdoor Canopy Tent Waterproof PVC Structure With Aluminum Alloy Frame For Events

### Our Product Introduction

#### Basic Information

- Place of Origin: Guangdong
- Brand Name: Tendars
- Certification: ISO9001, SGS, Coc, CE
- Model Number: Big tent
- Minimum Order Quantity: 25 square meters
- Price: Reconsideration
- Packaging Details: 1, The aluminium frame structure packed into the bubble film 2, the pvc fabric roof cover and sidewalls are packed into the PVC fabric carry bag; 3, Hardware packed into the box.
- Delivery Time: 18days or To be negotiated
- Payment Terms: L/C, T/T, Western Union, MoneyGram
- Supply Ability: 50000 Square Meters per Month

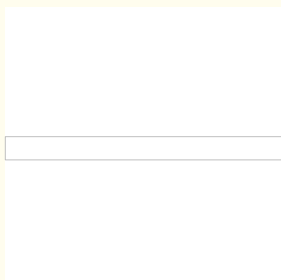

#### Product Specification

- Product Name: Outdoor Canopy Tent
- Feature: Waterproof
- Cover Material: PVC Coated Fabric
- Frame Material: Aluminum Alloy
- Optional Parts: Sidewall
- Warranty: 3 Years
- Size: Customized Size
- Style: Luxury

## Product Description

### Custom Outdoor Canopy Tent Waterproof PVC Structure With Aluminum Alloy Frame For Events

#### Description :

Clear Span Width	9m(30ft)
Eave Height	2.5m / 3m
Ridge Height	4.0m / 4.5m
Roof Pitch	18
Bay Distance	3m or 5m
Longest Component	5m
Minimum Length	5m
Maximum Length	No Limit
Roof Fixing	Aluminum bar tension
Main Profile	122 x 68 x 3mm (4-channel)
Framework Material	Hard pressed extruded aluminum 6061/T6
Eave Connection	Hot-dip galvanized steel insert
Roof Cover & Sidewall Materials	850gsm(25oz) white PVC, 650gsm(19oz) White PVC; Colored PVC; 650gsm(19oz) Clear PVC
Optional Accessories	PVC Windows, Glass door, Stakes, Stake Puller, Rain gutter, ABS walling system, Lining and Curtain, Flooring system, Glass walling system, Weight Plate, Air Conditioning, etc.

#### Details:

#### Principles involved:

**Shelter:** The primary purpose of an Outdoor Canopy Tent is to provide shelter from the elements. Whether it's protection from sunlight, rain, wind, or even insects, the canopy tent acts as a barrier between the occupants and the outdoor environment. The canopy material is designed to be durable and weather-resistant, ensuring that it can withstand various weather conditions.

**Structure:** The structure of an Outdoor Canopy Tent typically consists of a frame and a canopy. The frame is usually made of lightweight yet sturdy materials such as aluminum or steel. It provides the framework for the tent and supports the canopy. The canopy is made of fabric, often polyester or vinyl, which is stretched over the frame to create the sheltered space.

**Portability:** One of the key principles of Outdoor Canopy Tents is portability. These tents are designed to be lightweight and easy to transport, set up, and take down. They often come with carrying bags or cases for convenient storage and transportation. This portability makes them ideal for outdoor events such as parties, picnics, festivals, camping trips, and more.

**Flexibility:** Outdoor Canopy Tents are highly flexible in terms of their usage and configuration. They can be set up in various locations, including parks, beaches, backyards, and campsites. They can also be used for a wide range of activities, such as outdoor dining, relaxation, shade, vendor booths at events, and temporary shelter during emergencies.

**Assembly:** The assembly of an Outdoor Canopy Tent is typically straightforward and does not require special tools or expertise. Most tents come with instructions that guide users through the setup process. The frame is often collapsible or modular, allowing for easy assembly and disassembly. This simplicity in assembly ensures that the tent can be quickly deployed whenever needed.

**Versatility:** Outdoor Canopy Tents are versatile structures that can be customized to suit different needs and preferences. They come in various sizes, shapes, and designs to accommodate different spaces and occasions. Additionally, they can be accessorized with sidewalls, curtains, lighting, flooring, and other features to enhance their functionality and aesthetics.

**Durability:** While Outdoor Canopy Tents are designed to be lightweight and portable, they are also built to be durable and long-lasting. The materials used in their construction are chosen for their strength and resilience, ensuring that the tent can withstand repeated use and exposure.

to outdoor conditions.

#### FQA:

**Q: Can you print our logos on tent?**

\* Yes. Customized logos can be print on the tent fabric according to your requirements.

**Q: Is that factory price?**

\* Yes. We assure you all prices are based on factory.

**Q: Does your tent be able to install repeatedly?**

\* Our tents can be assembled and dismantled and repeatedly with small transportation size. The lifespan of aluminium framework can reach 15-20 years, and 5-8 years for PVC fabrics depending on different conditions of usage.

**Q: What documents are available?**

\* A full range documents including structural drawings, packing list, installation manual and relative certificates can be provided. Moreover, customs declaration is provided. We provide one-stop service for you.

**Q: What size tent is necessary for your special event?**

\* A person must first determine tent usage. If a tent is being used for dining purposes and round tables are being used allow 10-12 square feet per person. If banquet style tables are being used allow 8-10 square feet per person. If the purpose is for cocktail service allow 5 to 6 square feet per person. Contact us for all your specific questions and more information on tent types.

**Q: Is your tent strong and stable enough? How about the wind loading?**

\* Yes. The main frameworks (upright support and roof beam) are manufactured with high impact extruded anodized aluminum (6061/T6) so our tent structure is safe and strong and can resist wind up to 100 km/hr after setting up correctly.

**Q: How long is the warranty period?**

\* Guarantee one year. During the warranty period, we shall repair or replace the damaged part accordingly because of any damage due to quality problem.
