

Aluminum Alloy Custom Glass Wall Tent Marquee Canopy Tent For Permanent Sports Stadium For Sale

Our Product Introduction

Basic Information

- Place of Origin: Guangdong
- Brand Name: Tendars
- Certification: ISO9001, SGS, Coc, CE
- Model Number: Big tent
- Minimum Order Quantity: 25 square meters
- Price: Reconsideration
- Packaging Details: 1, The aluminium frame structure packed into the bubble film 2, the pvc fabric roof cover and sidewalls are packed into the PVC fabric carry bag; 3, Hardware packed into the box.
- Delivery Time: 18days or To be negotiated
- Payment Terms: L/C, T/T, Western Union, MoneyGram
- Supply Ability: 50000 Square Meters per Month

Product Specification

- Product Name: Marquee Canopy Tent
- Application: Party/Outdoor Event/Wedding Event
- Feature: Flame Redartant/Water Proof/windpoof
- Frame Material: Hard Pressed Extruded Aluminum Alloy
- Side Wall: PVC Wall/Without Side Wall/Glass Wall
- Accessiores: Roof Lining,Glass Door ,Stage ,chairs Ect
- Snow Load: 75KG/SQM
- Wind Load: 100KM/H

Product Description

Aluminum Alloy Custom Glass Wall Tent Marquee Canopy Tent For Permonent Sports Stadium For Sale

Description :

Certifications	ISO9001, SGS,Coc, CE
Frame Material	Aluminum Alloy
Feature	Flame Redartant/UV-resistant/Water Proof
Color	White, Red, Clear or Customized Color
Temperature Resistance	-30 degree Celsius~+70 degree Celsius
Service Life	More Than 15 years
Optional accessory	Decoration liner, wooden floor, glass wall, etc.
Installation	easy and fast to assemble and dismantle. We will offer the installation manual and vedio

Details:

Frame Material

Aluminum Alloy T6061/T6,hard pressed extruded aluminum alloy,anodized surface handing,silver color,sturdy and never rust,over 15-20 years life span.

Frame Available Size

84 x 48 x 3mm, 112 x 203 x 4mm, 166 x 88 x 3mm, 120 x 200 x 4mm, 120 x 250 x 4mm, 120 x 300 x 5mm, 120 x 350 x 6mm, 120 x 400 x 6mm (depend on the span size)

- 1) Size: from 3 meters to 50meters
- 2) Eave height: standard from 2.5m, 3m, 4m to 5m upon span width (or special height per requested
- 3) Length: Unlimited, extended by 3m or 5m each bay

Principle:

Frame Construction:

The first step in making a Marquee Canopy Tent is constructing the frame. The frame serves as the structural skeleton of the tent, providing support for the canopy and ensuring the tent's stability.

Frames are typically made of lightweight yet sturdy materials such as aluminum or steel. These materials offer the necessary strength to withstand outdoor elements while remaining portable for easy setup and transportation.

The frame is designed to be collapsible or modular, allowing for convenient storage and transportation when the tent is not in use.

Canopy Fabrication:

The canopy of the Marquee Canopy Tent is fabricated using durable and weather-resistant materials. Common options include polyester fabric coated with PVC or vinyl, which provide protection against sunlight, rain, wind, and other outdoor elements.

The canopy material is cut to the desired size and shape, taking into account the dimensions of the tent frame. Seams are reinforced with stitching and waterproof tape to prevent water infiltration and enhance the tent's durability.

Optional features such as clear panels, windows, or branded signage may be incorporated into the canopy design to enhance functionality and

aesthetics.

Assembly Process:

Once the frame and canopy components are fabricated, the assembly process begins. The frame is set up according to the manufacturer's instructions, with each component securely connected and anchored to the ground.

The canopy is then attached to the frame, either by sliding it over the top of the frame or securing it with fasteners or clips. Care is taken to ensure that the canopy is evenly stretched and properly tensioned to prevent sagging or wrinkling.

Finishing Touches:

After the canopy is attached, any additional features or accessories are installed to complete the tent. This may include sidewalls, doors, windows, flooring, lighting fixtures, and branding elements.

Sidewalls are attached to the frame to provide privacy, protection from wind or rain, and temperature control inside the tent. Doors and windows are installed for easy access and ventilation.

Flooring options such as carpeting, turf, or interlocking tiles may be added to create a comfortable and level surface for guests. Lighting fixtures, such as chandeliers, string lights, or LED strips, are installed to illuminate the tent's interior and enhance the ambiance.

Quality Control and Testing:

Before the Marquee Canopy Tent is ready for use, it undergoes rigorous quality control and testing procedures to ensure that it meets safety standards and performance requirements.

Each component is inspected for defects, structural integrity, and proper functionality. The tent is tested for stability, wind resistance, water repellency, and other key performance metrics to ensure reliability and durability in outdoor conditions.

FQA:

1. Can you print our logos on tent ?

Yes. Customized logos can be print on the tent fabric according to your requirements.

2. Is that factory price?

Yes. We assure you all prices are factory price.

3. Is your tent strong and stable enough ? How about the wind loading ?

Yes, It can resist wind up to 100 km/hr, if the wind or snow is very very heavy, please tell us and we will strengthen the tent to keep you safe!
