30.00m		8.70m		10.35m
40.00m		10.30m		10.50m
50.00m		11.90m		10.50m

Here's an introduction to the Warehouse Membrane Structure Tent:

Innovative Design: Warehouse Membrane Structure Tents feature a unique design that combines a sturdy frame with a tensioned membrane cover. The frame, typically made of galvanized steel or aluminum, provides structural support, while the membrane cover offers weather protection and natural lighting.

Spacious Interior: These tents offer a spacious interior with high ceilings and no internal support columns or beams, maximizing usable storage space. The open layout allows for easy movement of goods and equipment within the warehouse, making it suitable for various storage applications.

Weather Resistance: The membrane cover of Warehouse Membrane Structure Tents is made from durable and weather-resistant materials such as PVC-coated polyester or PTFE (Polytetrafluoroethylene) fiberglass. This fabric provides excellent protection against rain, wind, snow, UV radiation, and other weather elements, ensuring that stored items remain dry and protected.

FQA:

Q1. You are manufacture factory or trading company?

We are manufacture factory. And you are welcomed to visit us at any time. The quality control flow and sales team will show you our professionalism. Also you will can get best and most competitive price after visiting us.

Q2. Is your price competitive compared with other companies?

Our business objectives are to give the best price with same quality and best quality with the same price. We will do everything we can to reduce your cost and guarantee you get the best product that you paid for.

Q3: Can you print our logos on event tent for sale?

Yes. Customized logos can be printed on the tent fabric.

Q4: Is your tent strong and stable enough? How about the wind loading?

Yes. The main frameworks (upright support and roof beam) are manufactured with high impact extruded anodized aluminum (6061/T6), so our tent structure is safe and strong enough to resist wind up to 100 km/hr.

Q5. Do you accept container loading inspection?

You are welcomed to send an inspector, not only for the container loading, but any time during the production time.

Q6. Does your tent be able to installed repeatedly?

What is the life span? Sure, our tents can be assembled and dismantled easily and repeatedly with small transportation size. The lifespan of aluminium framework can reach 15-20 years, and 5-8 years for PVC fabrics depending on different conditions of usage.

Q7: How long is the warranty period?

Guarantee is one year. During the warranty period, we shall repair or replace the damaged part accordingly because of any damage due to quality problem.

Q8: How is the quality of the product guaranteed?

Our products will be strictly tested by the quality inspection department before leaving the factory, and each product will be strictly controlled to ensure product quality.
