Snow Load:75kg/sqm.

FAQ:

What is an A-Frame Marquee Tent?

An A-Frame Marquee Tent is a type of temporary outdoor structure characterized by its distinctive A-shaped roof design. These tents feature steeply sloped roofs that meet at a peak in the center, providing a spacious interior with ample headroom and a visually striking appearance.

What are the benefits of an A-Frame Marquee Tent?

A-Frame Marquee Tents offer several benefits, including:

Spacious interior: The A-frame design provides a large and open interior space without the need for internal support poles or columns.

Visual appeal: The steeply sloped rooflines create a striking architectural silhouette, making A-Frame Marquee Tents an attractive focal point for outdoor events.

Weather resistance: The sloped roof design allows rainwater, snow, and debris to easily slide off the tent, minimizing the risk of water pooling and structural damage.

Versatility: A-Frame Marquee Tents are suitable for a wide range of events, including weddings, parties, corporate functions, trade shows, and festivals.

Customization options: These tents can be customized with sidewalls, windows, doors, flooring, lighting, and other accessories to suit specific event requirements and preferences.

What sizes are available for A-Frame Marquee Tents?

A-Frame Marquee Tents come in various sizes and configurations to accommodate different event needs and guest counts. Common sizes range from small tents suitable for intimate gatherings to large tents capable of accommodating hundreds of guests.

How are A-Frame Marquee Tents installed?

A-Frame Marquee Tents are installed using a modular frame system constructed from sturdy materials such as aluminum or steel. The frame components are assembled and anchored to the ground, and the canopy fabric is then attached to the frame and tensioned to create a secure and weather-resistant structure.

Are A-Frame Marquee Tents suitable for all weather conditions?

A-Frame Marquee Tents are designed to withstand various weather conditions, including rain, wind, sun, and snow. The steeply sloped roof

design allows for efficient water runoff and minimizes the risk of water pooling on the tent's surface.

Can A-Frame Marquee Tents be customized?

Yes, A-Frame Marquee Tents can be customized with a variety of features and accessories to meet specific event needs and preferences. This includes options for sidewalls, windows, doors, flooring, lighting, heating, air conditioning, and branding opportunities such as custom graphics and logos.
